D. AWARDS AND RECOGNITIONS:**E. PUBLIC FORUM:****Steve Duke - COMMENTS READ BY STAFF**

The FDA and the CDC have recommended wearing masks to help keep the COVID-19 virus from spreading. Countries that have successfully combated the disease all require wearing masks. Wearing masks protects the person wearing the mask and keeps the virus from spreading to others. Yet, when I go to the groceries stores only a few are wearing masks, including the people working. Business have a responsibility to protect their workers, their customers, and Naperville community. When I ask store managers why they do not at least require their workers to wear masks, they respond that they provide masks, but do not require them to be worn. Skokie requires masks be worn. The City of Naperville has a responsibility to keep our community safe and require that EVERYONE wear masks in public, especially at essential businesses where people shop and work. We have stay at home orders, closed parks, and restrict public gatherings. We can and must require people to wear masks.

Matt Pickering - COMMENTS READ BY STAFF

My family have been Naperville residents for 11 years. We love this community and value all the amenities, services, and culture it has to offer. We are very worried about the financial viability of Naperville's small business community during this "shelter in place" lockdown and have a proposal meant to provide financial relief to affected businesses. We propose the City sponsors a city wide raffle meant to provide cash to affected small businesses. The city would sell raffle tickets to Naperville residents and other interested parties with the proceeds to be split 30% to three randomly selected winners (15%, 10%, 5%) and 70% of the proceeds would go to a common fund meant to provide financial assistance to small businesses. We trust the city would disburse the funds appropriately and winners perhaps could get a plaque/brick with their name on it in memoriam for supporting the city in this time of need. The cost of the tickets and fund-raising target can be worked out later of the idea is considered to have merit.

Nancy Chen - SPEAKER

Read a proposed resolution regarding racism and offered suggestions for increasing inclusivity and diversity.

Bill Liu, Chairman of Chinese Community Outreach, City of Naperville, was appointed by the late Mayor George Pradel - SPEAKER

I want to thank the Mayor and city council for this opportunity to have this letter read into the public record. I would prefer to speak from the podium in person, like I did when Mayor Pradel appointed me to the Chairman position seven years ago. But during this time of quarantine, we are all making sacrifices for the greater good. However, one of those sacrifices should not include our right to free speech, nor our right to address our public officials. In the April 7th Council meeting via Zoom, the public was invited to submit letters in lieu of in-person speech. During this meeting, Ms. Erika DeCarlo, exercised her right of free speech by submitting a letter to support the sale of marijuana in the city of Naperville. Ms. DeCarlo probably will be surprised that she and I stand together on this issue. However, I cannot disagree more with Ms. DeCarlo's depiction of many Naperville citizens of Chinese descent who support the Opt Out as carpetbaggers. The portrayal was demeaning and highly offensive. The American citizens of Chinese descent, like other American citizens have a variety of opinions that rest anywhere along a great spectrum of both political and economic concerns. To depict any group as a single voting block is ignorant and offensive. To describe any group as carpetbaggers is

beyond abhorrent. Let me remind the Council that the term carpetbagger originated in the American South after the Civil War. It is a term that was used to depict Northerners who travel to the south to take advantage of the war-torn South after the war. It is a derogatory term meant to describe those who do not belong, and to those who take unfair advantage. Ms. DeCarlo, how is any American citizen exercising their right to advocate for a political position taking unfair advantage? Ms. DeCarlo's Naperville roots are quite impressive, but being born-and-raised in Naperville is not a prerequisite to express your opinion. Let me point out that the majority of Naperville citizens are not born and raised here. To the best of my knowledge, only one current council member was born and educated in Naperville. As American citizens, we encourage all our fellow Americans to exercise our collective constitutionally given rights to express our views. We proudly and fully endorse all Americans to exercise their rights for political discourses. Ms. DeCarlo exercised her right to support recreational marijuana sales. However, derogatory and insulting comments should not be part of the public discourse. I fully understand that submitted letters during these council meetings are part of the public's right to address their elected leaders. The city council cannot and should not censor any submitted letters in any shape or form. However, it is my hope that these same public officials will speak out against any offensive language that divides, not unites Naperville. Thank those council members who did speak out when these offensive comments were first read. Please join me in condemning any prejudice and xenophobia in Naperville.

Council thanked the speakers, discussed comments that were read into the record at the April 7 Council meeting, that the mission statement has recently been updated, current discussions regarding a new commission to address diversity, and the appropriateness of a proclamation or resolution.

Krieger commented that a staff group is meeting with Councilman White and a recommendation will be brought to the Council at the second meeting in May.
