RE: McDowell Point Development

Dear Ms. Laff,

We have reviewed the proposed plans for the McDowell Point development and understand that it will be designated senior housing. As always, the primary concern of the District are the estimated number of children to be generated by the project, the capacity of the schools which would serve this development and the balance between estimated revenues generated vs. cost to educate the students generated from the development.

Because the site will be designated senior living, the school district is in support of the project. We understand that students will not be coming from this development and that we will not be receiving land/cash donations from the project.

If you have any further questions, please contact me at 630-375-3070.

Sincerely,

A handwritten signature in black ink that reads "Jay Strang". The signature is fluid and cursive, with the first name "Jay" and the last name "Strang" connected.
