

Memorandum

June 10, 2026 Agenda Items

To: Riverwalk Commission

From: Tiffani Picco, Riverwalk Operations Manager, 630-848-3590

Date: June 3, 2026

Re: Naperville Park District's Monthly Field Report for the Riverwalk Commission Regular Meeting

Field Report for May, 2026:

- Summer flowers have been planted.
- Perennials have been planted in several areas to fill in bare spaces
- Staff are focusing on watering with the dry conditions we've had lately
- We had to make some repairs to the irrigation system when we started it up, we will continue to monitor and address issues as we find them
- Staff worked on the landscape restoration at Fredenhagen Park where the contractor had to excavate for the fountain repair work. The ground was regraded and stones removed from the surface where turf will be added. New plants will be installed in the landscape beds and the turf will be restored soon.
- A volunteer group assisted with cutting back some invasive resprouts along the riverbank west of the metal bridge

Carillon Update:

- Carillon tours are available Friday, Saturday and Sunday through mid-August

Other points of interest:

- The paddleboat and kayak rentals are open seven days a week through mid-August
- Centennial Beach is open for the season
