Re: **Naperville Park District's Monthly Field Report for the Riverwalk Commission Regular Meeting**

Field Report for December, 2025:

- Much of December was focused on snow removal with winter weather. The sled hill received a lot of use at the beginning of the month. We flooded the Centennial basin 3 different times in an attempt to create ice for the hockey rinks but we continued to lose water faster than it froze. We will meet with the City stormwater team to figure out the extent of the leaking issues and will decide how to proceed based on those findings.
- Holiday decorations are being taken down and returned to storage
- Staff are discussing spring enhancement project ideas which will be presented to the PD&C at the February meeting

Carillon Update (NPD)

- There are no scheduled events at the Carillon for the winter.

Other points of interest:

- None at this time.
