

Speech for Anyone3

Dear Council, My name is Kyle Alvarez and I oppose this ordinance. This ordinance only addresses guns and not violence.

One thing that I took away from the last council meeting was that everyone was on the same page. There was a common theme among everyone which was, we all want our community to be safer and we all want our children to be safe in our schools. I would like to propose that we all work together to achieve this common goal of making our community safer. Is it possible to save all the money that will be spent defending lawsuits from this Ordinance and instead spend it on programs that will actually prevent violence and make our community safer?

Mayor Chirico, YOU need to follow the supreme court precedence. You need to vote no because you will lose this battle. How much of the tax payers money are you willing to spend to defend this ordinance.

Council, I oppose this ordinance. Please vote NO.
