To whom it may concern:

Our son first started attending KLA in Plainfield very shortly after they opened in 2013 and was a student there for the next four and a half years. In that time we were so pleased to see his growth from toddler to Kindergartener. The environment that KLA provided gave him the confidence to blossom into a smart, well-rounded boy with a strong foundation to continue his educational journey. He understands the value in giving to others through the various outreach programs he has witnessed and participated in. He has also gained a respect for the elderly community through the cross-generational programs that KLA has fostered with the neighboring senior living center.

Additionally KLA has given our family a place to turn to for guidance in raising our son and understanding children in their various stages of development. Ms. Selvei and her management team share relevant studies with the parents, bring in guest speakers on a variety of topics and are always open for a conversation on any subject. KLA is more than a day care, it is a valuable resource to our community in Plainfield. Every community deserves a KLA caliber school.

Sincerely,

Hudson & Alpa Magloire
