To Whom It May Concern:

I have received the Notice for Public Hearing and I would like to hereby voice my concerns for the action proposed: to allow major change of zoning to the Iroquois PUD.

As a resident of the Mansions on Spring Garden Circle, I have several worthy concerns.

Our once residential street, Iroquois Ave, has become a major thoroughfare to allow traffic for Costco. If a restaurant like Chik-fil-a opens up, the already narrow lane between the two signs will make the traffic horrendous. As it stands right now, trying to make a turn from Iroquois onto Ogden is very difficult. There is no green arrow to allow for a left turn. Often, we have to wait for several lights in order to turn left. Having the added traffic will make things worse. Already, several accidents have happened in that intersection.

Another concern is for the danger it will represent for those disabled folks who live in the facility *Katharin Manor Apartments*, next to the Costo gas station. Often they are seen in their motorized wheelchairs trying to go someplace. The high traffic and the narrowing of the road will likely limit their foray options and put them in danger.

Another concern is what one more restaurant, so close to a residential area will do for the air quality. Already the air smells bad from the five other restaurants within a block of the proposed site.

I am urging you to reconsider the plan of allowing another fast food restaurant so close to our residential area.

Sincerely,

Elisabeth Treefon

Comments

Just wrote this on phone.

I have some major concerns about the zoning variance requested for Chick-fil-a requested by the HR Green Development LLC.

It appears that this is going to be very close to the entrance of Costco. Costco has changed Iroquois avenue from a residential street to a commercial back road in order to avoid massive and dangerous traffic intersections on Ogden avenue.

During the prime time and now takes two or three lights to make a left hand turn from Iroquois onto Ogden. There is no left hand turn light and there have been a number of accidents. Next to Costco is a facility for disabled people. Many of them are on motorized wheelchairs. And this will more than likely endanger them as they are talking about narrowing the road and putting in more entrances.

I would question if there's been any real studies done to document the environmental impact on this residential neighborhood. A Chick-fil-A is a High traffic restaurant almost like putting in a McDonald's. So what was the nice quiet residential avenue area has turned into a main traffic corridor with no known plans for street improvements. So these are some of my major concerns to be addressed.

Irving Turkfeld

To Whom It May Concern:

My name is Ellen Thompson, and I reside at [REDACTED]. My main nearby residential street is Iroquois Ave., and the tranquility of my neighborhood was greatly disturbed by the building of a Costco Warehouse store nearby several years ago. Traffic became much heavier on Iroquois Ave., and especially the stoplight at Iroquois and Ogden became overburdened, necessitating a wait time of several light changes before being able to proceed left onto Ogden Avenue.

Having a Costco nearby is bad enough for one small neighborhood to endure, but to add a Chick-fil-a to the same area seems to be intended to make traffic even worse for us. Chick-fil-a is known to draw many cars, the drive through lane often stretching out into the main roadway.

Please deny the Petition from HR Green Development to build a Chick-fil-a in our neighborhood. Please deny the zoning variance request at the hearing on March 20, 2024.

Sincerely,
Ellen Thompson
