City of Naperville
180 Fort Hill Dr
Naperville, IL

To whom it may concern:

This letter is to confirm that the Model 1539, Three Reel Turret Trailer is designed, manufactured, sold, and distributed by Sauber Mfg. Co. This trailer is equipped with specific design qualities and components that are exclusive to Sauber manufacturing making this utility trailer a sole source product.

- Sauber Mfg. Co. is the only manufacturer of this product as specified for The City of Naperville.
- This trailer includes a ventilated bronze disc braking system exclusively produced by Sauber Mfg. Co. Its tested and proven 3000 ft-lb continuous use rating provides safe conductor tensioning. The following physical features that lead to this performance are only found in combination on a Sauber Mfg. Co. Model 1602 All Bronze Tensioning brake.
 - Single casting ventilated bronze disc prevents uneven expansion during use, and subsequent unreliable brake performance.
 - Large brake pad material for lower operating temperature
 - Completely non-rusting, bolt-together brake housing
 - Dovetail tongue and groove reel bar interface for correct reel bar to brake connection that eliminates poor performance due to binding.
- Sauber Mfg. Co. is the only manufacturer that utilizes a standard structural steel tubing frame with bent a-frame section for superior strength and known performance.
- Sauber Mfg. Co. is the only manufacturer with a standard bolt-on tread-plate deck surface to prevent galv warp and provide a flat, safe walk surface.
- Sauber Mfg. Co. is the only manufacturer that includes modular turntable turret bearings with a separate, non-prorated, standard 10-year warranty.
- Sauber Mfg. Co. is the only manufacturer that includes Hot-Dipped Galvanized finish for utility trailers as standard with a separate 10-year warranty.
- Sauber Mfg. Co. leads the field with a 10-year, comprehensive, trailer and truck platform warranty. This warranty comes at no additional charge to our customers and demonstrates the quality of all our utility trailers. Details follow:
 - 10-Year Structural, parts & labor on all Sauber manufactured components
 - 3-Year Total parts & labor coverage
 - 3rd Party mechanized equipment like liftgates, cranes, and hoists are covered under their respective manufacturers' warranties.

- Customer labor reimbursement @ \$80/hour
- Sauber Mfg. Co. is located within 30 Miles of The City of Naperville's location at 180 Fort Hill Drive, in Naperville, IL and operates a full-service center, equipped as necessary to provide warranty coverage, parts, service, and labor associated with this trailer's support and is the only capable facility in this geographic region.

If you desire additional information, don't hesitate to contact me at any time. Thank you for your interest in our product.

Sincerely,

Josh Wicks
