NOTICE OF PUBLIC HEARING

The City of Naperville will be seeking a stormwater variance to Section 15-72. D.3 of the DuPage Countywide Stormwater and Floodplain Ordinance (DPCSFO) for the North Aurora Road Underpass project being constructed by the cities of Naperville, Aurora and Naperville Township.

Naperville is requesting to use the Bulletin 70 rainfall data instead of the updated Bulletin 75 data that became effective a few years ago. The existing underpass drains by gravity and floods during heavy rain events. The project includes a vault and pumping station to accommodate the deeper underpass and eliminate the flooding. The pump station, vault and pumps were all designed and sized based on Bulletin 70. A redesign will require not only redesign of the storm sewer but the vault, pumps and station as well as the acquisition of additional easements. The current design meets the release rate requirements of the DPCSFO.

The Naperville City Council will conduct a public hearing on this variance request at its regularly scheduled City Council meeting on December 6, 2022. The meeting will start at 7:00 PM and will be held in the Council Chambers of the Naperville Municipal Center, located at 400 S. Eagle Street. Individuals may either send comments in advance of the meeting, sign up to speak at the meeting, or ask to be recognized and speak during the public hearing.
