E. PLEDGE TO THE FLAG:

The Pledge of Allegiance was recited.

Mayor Wehrli noted that members of the City Council, staff, and the public were wearing green ribbons in honor of Electric Utilities Director Brian Groth as a symbol of solidarity and support. He explained that green is the color associated with Traumatic Brain Injury awareness and shared that the community continues to keep Brian and his family in their thoughts, sending them strength and encouragement. Mayor Wehrli stated that the City of Naperville stands with Brian and his family and will continue to support them throughout his recovery.

F. AWARDS AND RECOGNITIONS:

1. Proclaim June 19 as Juneteenth Day in the City of Naperville

Proclamation was presented by Councilman McBroom.

G. PUBLIC FORUM:***SPEAKERS***

John Doyle (Naperville) discussed the path to affordable electricity.

SB3336 Lack of response

Derek Adam Hoover (Naperville) provided an update on trying to add an amendment to the E-Bike Ordinance.

Mayor Wehrli requested an update on the "teen takeover" event that occurred in downtown Naperville on June 1, 2026. Following the report, he expressed his appreciation on behalf of the City for the dedication and professionalism demonstrated by the City's first responders. He also stated maintaining public safety is a shared responsibility and the safety and well-being of the community depends not only on first responders, but on the actions and cooperation of all residents.

Arres reported that the Police Department was notified several weeks in advance of a planned "teen takeover" event in downtown Naperville on June 1, 2026. He stated these types of gatherings are not new to the City and that the Police Department has gained valuable experience in managing them over the past few years. In preparation for the event, the department developed a plan and deployed significant resources throughout the downtown area, maintaining a highly visible presence throughout the evening. Public messaging was issued in advance to make it clear that individuals who failed to follow the law would be held accountable. Arres stated that the City's zero-tolerance approach to violations, combined with proactive communication efforts, has had a positive effect overall. As a result of enforcement efforts, nine individuals were arrested on charges including battery, disorderly conduct, and providing false names to police officers. In addition, several traffic citations were issued. He expressed appreciation for the community members who support the Police Department and commended the officers for their professionalism throughout the evening, despite encountering instances of disrespectful behavior. He stated that the department will continue to plan accordingly for these types of events and emphasized that while the City wants residents and visitors to enjoy downtown Naperville, they must do so responsibly and in accordance with the law.

J. PUBLIC HEARINGS:

1. Conduct the public hearing for the Program Year 2025 Community Development Block Grant (CDBG) Consolidated Annual Performance Evaluation Report (Item 1 of 2)

Mayor Wehrl opened the public hearing at 7:21 p.m.

Council inquired whether the City is fully utilizing all available Community Development Block Grant (CDBG) funding opportunities or if potential funding is being left unclaimed, is the City applying for all eligible grant funds and, if not, what barriers may be limiting participation. Council also discussed potential strategies to increase awareness of the program, expand outreach efforts, and encourage greater participation from eligible participants in the future.

Barfuss stated that the City is maximizing its use of Community Development Block Grant (CDBG) funding, as all available funds are allocated each year. New applicants are always welcome to apply for funding. However, due to the federal requirements associated with the program, prospective applicants are encouraged to attend the pre-application meeting to better understand eligibility criteria and program requirements. Barfuss explained that the program primarily focuses on capital projects that benefit low- and moderate-income individuals and added organizations interested in applying for funding are encouraged to contact her directly for guidance and assistance with the application process. Barfuss added that the CDBG application process is conducted in conjunction with the Social Services Grant (SSG) program, which is highly popular and competitive. Both grant opportunities are publicly advertised in advance of the application period, providing organizations the opportunity to apply for qualifying projects and programs. Any organizations meeting the applicable requirements are encouraged to submit applications for consideration.

2. Accept the Program Year 2025 Community Development Block Grant (CDBG)

Consolidated Annual Performance Evaluation Report (Item 2 of 2)

A motion was made by Councilman White, seconded by Councilman Kelly, to close the public hearing at 7:23 p.m. and accept the Program Year 2025 Community Development Block Grant (CDBG) Consolidated Annual Performance Evaluation Report. The motion carried by the following vote:

Aye: 8 - Wehrli, Gibson, Holzhauer, Jain, Kelly, McBroom, Syed, and White

Council discussed the Due Process and Municipal Property Ordinance.

WRITTEN COMMENTS

Christine Stephens (Naperville) I support the Due Process and Municipal Property putting sensible limits on ICE ordinance.

Terry Cole (Naperville) Naperville needs to be a welcoming community that protects the vulnerable population. I don't think we always meet that goal, but I hope that it is one to which everyone aspires. I would think we can commit to the principles of due process. Keep public areas free from the possibility of being harassed or bullied. No arrests without warrants. Police aren't obligated to participate in activities they feel are illegal or go against their basic principles. None of these actions violate the constitution and will assist in keeping

Naperville safe. Please vote for this.

Luke Galloway (Essex) Hello Naperville City Council! I want to share this public comment to encourage you to pass the Naperville Due Process and Municipal Property Ordinance, which our community has been advocating for. Agenda Item 26-0673 is an opportunity for you as city councilmembers to show that Naperville welcomes ALL of its residents, regardless of their status in this country. We've all seen the unjust, unconscionable, and violent practices of immigration enforcement throughout our state. People are rightly scared and outraged for their own safety, and the safety of their community. Your responsibility as a city councilmember is to that very same public. And that's why you should vote YES on passing this policy. I'm writing to you today because I'm close with many affected or adjacent community members within the city. People all across the state are in solidarity with protecting our undocumented and immigrant communities from federal aggression. This is your proof that, indeed, the choice you make tonight has ramifications outside just this community center and just this city. We're all made more unsafe from the officers' unaccountable and violent nature. We thank Council members DiSanto, Gibson, Holzhauser, Jain, Kelly, Syed, and White for their support in the first reading. To address Mayor Wehrli. Approving this ordinance and promoting through more than just statements, but solidified policy, that we welcome and protect all who make this city great is not a political statement. It's a practical and existential affirmation that this city supports all of its residents. We're in unprecedented times of aggression. For the council to refuse to act would lower public safety. To Councilmember McBroom. Your argument that this would only encourage more requests from other advocacy groups in the future is unfortunate. You represent the public those groups advocate for. We ALL do work to ensure that public is represented. You serve that public. And right now the public is asking you to take a stand. While there have been state-level protections (HB 1312 chief among them from last veto session), the frontline of showing that we stand with immigrants, that immigrants make our country great, and that we welcome immigrants, is local government. What we should NOT welcome, or condone, or acquiesce to is intolerance and aggression from the President's secret police. You have the opportunity to show that Naperville welcomes and affirms ALL residents. The public will remember who stood up in solidarity for our community, and who was scared and chose to hesitate on endorsing safety and human dignity. Please vote accordingly.

Helen Huie (Naperville) I am in support of the Due Process and Municipal Property Ordinance which would not allow ICE to set up on City owned property in Naperville. I recently filled out a survey from the City of Naperville which included a question about whether or not people felt welcomed in the City. If we were to allow ICE to set up on City property in Naperville, it would send a message to the citizens that only some of its citizens are welcomed. Problems seen in other cities when ICE has arrived also should be avoided if possible. Therefore I'm a proponent of the ordinance.

Eileen Rico (Naperville) It's important for Naperville to live up to its reputation as a city that will do all within its means to protect and serve its residents, those who work within our community, and our many visitors. Each spends money in our restaurants, shops and on various activities Their purchases and taxes

support our fiscal base. But, as a city widely considered a “Best Of..”, we must take steps to ensure all feel welcome here and that we can live up to that reputation. I respectfully ask that you support the Naperville Due Process and Municipal Property Ordinance at the June 2nd city council meeting. As a city known both locally and nationally for its commitment to the community, we must live by those values. Enacting this ordinance emphasizes that Naperville truly is a welcoming environment for everyone.

Evangeline Kilar (Naperville) The first, fourth, and fourteenth amendments are federal law and should be obeyed by all citizens, regardless of job description. No one is above the law, absolutely no one, no matter their perceived loyalty or proximity to fleeting power. I was deeply moved and hopeful by Mrs. Chirico's, wife of the former mayor's, comments after the murder of Alex Pretti that she made on Facebook. She condemned the violence we have all been traumatized by this year and stated that as a conservative herself, she did not recognize her values in this type of behavior and blatant flouting of rules and values. I do not consider myself a conservative, but I completely agree with Mrs. Chirico. Dehumanizing is not a political act and should never be construed as such. To suggest such a thing is to be on the side of wrong and evil, and I don't believe that that is who conservatives are. They do not demand reimmigration or white-washing or genocide. Conservative, Republican, Democrat, Progressive, Liberal, Third Party, Non-Affiliated, etc having nothing to do with genocide and betrayal of the constitution and all of its amendments, including first, fourth, and fourteenth. I grew up in Naperville myself from the age of 18 months to 18 years. In the late 1900s, I did not feel welcome and accepted and valued. I did not want to move back, but the exceptional schools were calling and I will always do what's best for my kids. When I shakily arrived back to my hometown, a place I had grown afraid of, I was shocked to be welcomed, with literal open arms, by everyone on my street. I was floored, and exceptionally happy, and hopeful that Naperville had indeed changed. That Naperville was now welcoming. That Naperville was now truly a safe place to be whoever you are. I left to protect myself and came home to a welcome that never happened in any other suburb I had moved to in northern IL. We as a city don't have to listen to nonsense being spread by shysters who are only in it for a quick buck. We can stand proud knowing we welcome everyone and we uphold our beloved country's unique and wonderful constitution, and all of its amendments. And violators of those amendments, in uniform or mask or cosplay costume or whatever, give up their privilege to be welcomed in the same way. It's sensible and kind and covers all manner of so-called party affiliations. We as Napervillians don't have to give in to the pressure from the media and the stock exchange to divide. We don't have different values from Mrs. Chirico, or my lovely, kind neighbors, or my children's outstanding teachers, or our exceptional police force and firefighters, etc etc etc. We can just be the great people that we are, and uphold our amazing constitution. Thank you for reading, and thank you for hopefully voting for sensible values and for our constitution.

Saul Olivas (Aurora) ALMAS - Good evening Mayor Wehrli and Members of the City Council, My name is Saul Olivas. I am an educator, a community advocate, and someone who believes deeply in the importance of building strong, connected communities. I am writing this message in support of the Naperville Due Process and Municipal Property Ordinance. In my work as an educator, I

have seen how trust plays a critical role in the success of families, students, and communities. People are more likely to engage with schools, local government, and community organizations when they understand the rules, know what to expect, and feel that decisions are being made through clear and transparent processes. That is why I believe this ordinance is important. While training and administrative guidance are valuable, formal public policy serves a different purpose. It provides a clear framework that residents can see, understand, and reference. It creates consistency, promotes accountability, and helps ensure that expectations remain clear over time. Public policy should not replace training and communication; it should complement them. I also believe that transparency matters. When local governments establish clear procedures regarding the use of public property and resources, they help reduce confusion and strengthen public confidence. Documentation, reporting, and clear guidance are not simply administrative functions—they are tools that help build trust between residents and their government. What I appreciate most about this proposal is that it is focused on governance and constitutional principles. It affirms due process protections, provides guidance regarding municipal property and resources, and remains consistent with both federal and state law. It is a practical and thoughtful approach that helps clarify the City's role and responsibilities. As a community advocate, I want all residents to have confidence that their local government operates with fairness, transparency, and accountability. I believe this ordinance helps advance those goals. I respectfully urge the Council to support the Naperville Due Process and Municipal Property Ordinance. Thank you for your time, your leadership, and your service to the Naperville community.

Lili Burciaga (Naperville) Dear Mayor Wehrli and Members of the City Council, I am writing as a Naperville resident in support of the proposed Naperville Due Process and Municipal Property Use Ordinance. In recent weeks, concerns have been raised that this ordinance is merely symbolic or that it creates a precedent for the City to take positions on broader social, political, or international issues. I respectfully disagree. This ordinance is fundamentally different from requests that municipalities weigh in on national movements or international conflicts. It does not ask Naperville to take a position on events occurring elsewhere. Rather, it addresses a local question that falls squarely within the role of local government: how municipal property, municipal resources, and municipal procedures are managed within our own community. This ordinance is not a response to an international conflict, a political movement, or a partisan issue. It is a local policy governing local property, local resources, and local procedures. That distinction matters. The ordinance establishes local policy regarding municipal property and resources while providing guidance and expectations for city departments and staff. Residents may disagree about the policy itself, but it is inaccurate to characterize an ordinance that establishes standards, procedures, and expectations as merely symbolic. It has practical implications for how the City conducts its business. At the same time, I believe criticism of symbolism misunderstands the role symbols play in civic life. Symbols are not meaningless. Communities use them

every day to communicate values, priorities, and commitments. Flags are symbolic. Memorials are symbolic. Civic oaths and public declarations are symbolic. Their symbolism is precisely what gives them meaning. Even if one views part of this ordinance as symbolic, that does not diminish its importance. Publicly affirming due process, constitutional protections, transparency, and the responsible use of municipal resources helps establish clear expectations regarding how local government operates. The question before the Council is not whether every future issue deserves a municipal response. The question is whether Naperville has the authority and responsibility to establish policies governing its own property, operations, and procedures. I believe the answer is yes. This ordinance does not ask Naperville to solve a national issue. It asks Naperville to define how it will govern itself. For these reasons, I respectfully urge the City Council to adopt the Naperville Due Process and Municipal Property Use Ordinance.

Lauren Reyes-Yu - I grew up in Naperville and now live here with my own family. I strongly support the Due Process and Municipal Property Ordinance. Growing up in Naperville, I learned to value the safety and well-being of my fellow neighbors, especially children. This ordinance would cost nothing to taxpayers, align with state/federal law, and protect residents by ensuring their first, fourth, and fourteenth amendment rights. Additionally, it would provide clear guidance regarding the use of city property and constitutional protections. Passing this ordinance is necessary in upholding the rights of all residents, and it will clearly reflect our Naperville values.

Tim F (Naperville) I oppose the Due Process and Municipal Property Ordinance. First, the ordinance appears to be politically motivated and reflects animus toward ICE, a federal law enforcement agency that plays a legitimate role in enforcing federal immigration laws. Second, Naperville already operates within a framework of existing federal, state, and local laws that govern interactions between municipal agencies and law enforcement. The need for additional restrictions has not been clearly demonstrated.

5. Approve the award of Cooperative Procurement 26-131, New and Replacement Personal Computers, to Amazon.com, CDS Office Technologies and Insight Public Sector for an amount not to exceed \$1,190,675

Council requested a description of the bundling process for large procurement items and if it is possible to encourage the use of local vendors.

Krieger explained that through the cooperative procurement process, a public entity solicits participation from other agencies and conducts a competitive procurement that is open to all qualified vendors. Because the resulting contract usually represents a significantly larger purchasing volume, vendors are typically willing to offer more favorable pricing and accept lower profit margins. He noted that these volume-based pricing advantages are where staff expects to realize the greatest value from cooperative purchasing agreements. Krieger stated that for smaller purchases and lower-dollar bids, staff makes an effort to solicit local vendors whenever possible. However, for larger national procurements, the City is generally utilizing contracts that were competitively bid through national or cooperative purchasing programs, where the City does not establish the specifications or procurement requirements. While these larger contracts may not be limited to local vendors, staff does continue to seek opportunities to include and solicit local businesses for procurements when possible.

A motion was made by Councilman White, seconded by Councilman Kelly, to approve the award of Cooperative Procurement 26-131, New and Replacement Personal Computers, to Amazon.com, CDS Office Technologies and Insight Public Sector for an amount not to exceed \$1,190,675.
