

**Project Number:** MB170  
**Project Title:** Tuck-Point Masonry at Burlington Commuter Station  
**Department Name:** Public Works

**Asset Type:** Municipal Buildings  
**CIP Status:** No Change  
**Project Category:** Capital Maintenance

**Budget Year:** 2017  
**Category Code:** B  
**Sector:** Northeast

**Project Purpose:**  
 This is a sustainable asset project that will tuck-point the masonry at the Burlington Commuter Station.

**Project Narrative:**  
 In FY2012-13 and FY2013-14, the 5th Avenue commuter train station had the masonry tuck-pointed in the interior of the main building and exterior of the station. The most deteriorated sections of the facility were repaired. Work scheduled for CY2017 will complete restoration and repair of the masonry at the building. Some bricks will need to be replaced and sealants will also be examined. The project will grind out damaged masonry joints using power grinders and vacuums and will clean all joints of mortar and debris. Mortar will be replaced to match existing color and profile.

**External Funding Sources Available:**

**Projected Timetable:**

CY2017 - Project will be above the extension mantle as needed

**Impact on Operating Budget:**

Will reduce operating budget by \$500 annually.
