600 E. Canal Street, 13th Floor  
Richmond, VA 23219  
DVIgridsolutions.com

July 23, 2024

To Whom It May Concern:

Dominion Voltage, Inc. (DVI) is the developer of the EDGE<sup>®</sup> software, which is a suite of Volt/VAR Optimization (VVO) specific software applications for the electric utility industry. This software is proprietary and DVI is currently the sole vendor/supplier/distributor/provider of the EDGE<sup>®</sup> software.

This letter is to confirm that DVI is the only company authorized to modify, maintain, and support the EDGE<sup>®</sup> software. At this time, there are no other agents or dealers authorized to support this product.

Sincerely,

A handwritten signature in black ink that reads 'William C. Zollars'. The signature is written in a cursive, flowing style.

William C. Zollars  
DVI – Technology Solutions Engineer
