Mr. Conn,

Please accept this letter confirming that Trihedral Engineering Limited is the sole manufacturer and distributor of VTScada software.

VTScada software has been in use worldwide since 1986. It is primarily used to allow the adaptation of SCADA (Supervisory Control and Data Acquisition) to various proprietary hardware devices and applications.

We appreciate the continued opportunity to work with you on providing the most comprehensive and open SCADA solution.

Sincerely,

A handwritten signature in blue ink, appearing to read "Dan Naughton".
