The continuance of such building or structure shall be subject to the regulations herein set forth.
- B. Repairs and alterations which increase the bulk of the building or structure and which increase the lot coverage may be made to a building or structure which does not comply with the yard requirements of the zoning district in which said building or structure is located, provided said repairs or alterations comply with the conditions, yard requirements, height limitations, and bulk regulations of the zoning district in which said building or structure is located.
- C. Repairs and alterations which increase the bulk of the building or structure and which do not increase the lot coverage may be made to a building or structure which does not comply with the yard requirements of the zoning district in which said building or structure is located, provided said repairs or alterations comply with the conditions, height limitations, and bulk regulations of the zoning district in which said building or structure is located.
- D. Nothing in this Title shall prevent the reconstruction, repairing or rebuilding of a building, structure or part thereof which does not comply with yard requirements of the zoning district in which said building or structure is located and which exists at the effective date hereof, rendered necessary by wear and tear, or deterioration of which is required by the provisions of the building regulations of the City relative to the maintenance of said buildings or structures, provided the cost of such work, within a two-year time period, shall not exceed fifty percent (50%) of the replacement cost of such building or structure at the time such work is done.
- E. If a building or structure which does not comply with yard requirements of the zoning district in which said building or structure is located is damaged by fire, collapse, explosion, or other casualty or act of God to the extent that the cost of restoration to the condition in which it was before the occurrence shall exceed fifty percent (50%) of the replacement cost of the building or structure at the time of destruction or damage, then any new construction or reconstruction must comply with all regulations of the zoning district in which the building or structure is located.
- F. No building or structure which does comply with the yard requirements of the zoning district in which said building or structure is located shall be moved in

whole or in part to any other location on the same or any other lot unless every portion of such building or structure complies with the regulations of the zoning district in which it is to be located.

SECTION 3: If any section, paragraph, or provision of this Resolution shall be held to be invalid or unenforceable for any reason, the invalidity or unenforceability of such section, paragraph, or provision, shall not affect any of the remaining provisions of this Resolution or any other City ordinance, resolution, or provision of the Naperville Municipal Code.
