Dear Naperville Liquor Commission,

We are writing regarding agenda item **24-1038**, the request from Miskatonic Brewing Co. who is seeking an amendment to their Growler License that would allow them to sell their packaged products. The Downtown Naperville Alliance Board recently met and discussed this topic at our recent Board Meeting.

The group voted **unanimously to support** Miskatonic's request to sell their packaged beer. As the solo beverage manufacturer in our downtown, all believed that this is a very fair and controlled request that they be allowed to do this, in line with other specialty retailers in our downtown (e.g. Sixty-Four Wine Bar, Tasting de Vine and Davanti) who sell bottles of wine.

We hope after your careful review that you will **approve** Miskatonic's request. Thank you for your careful consideration of this topic.

Sincerely,

A handwritten signature in black ink that reads 'Katie Wood'.
