

November 12, 2021

Dear City of Naperville,

Would you please issue a Temporary Use Permit for the pictured 4-Beam Searchlight for our Live Walk-Thru Nativity planned for Friday, December 10 from 5-9p and Saturday, December 11 from 6-10p at our Naperville Campus located at 1551 Hobson Road?

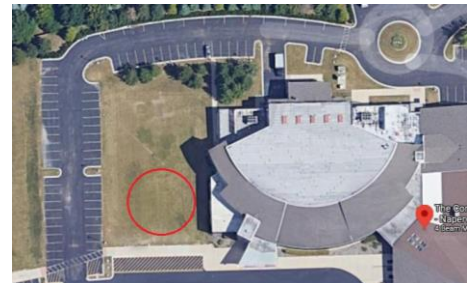

4-Beam Modular Trailer

Last year, because of the pandemic, we hosted a Drive-Thru event where families stayed in their car as they drove past scenes from the Christmas story. We had an overwhelming response with over 400 cars go through the event; many waiting more than 2 hours to experience it.

This year, our plan is to eliminate the long wait times by making this a Walk-Thru event. Families will park their car, then walk around the outside of our church to experience the scenes with live actors and animals. This is a free event that will take 20-30 minutes to experience. Registration is encouraged, but not required.

Like last year, we plan to rent a 4-Beam Searchlight from Northstar Searchlight Productions. The searchlight will be in the shepherd's field scene depicting the angel choir. This will be located in the water retention area right next to the church building and away from both Hobson and Wehrli Roads. See picture to the right.

We are planning to hire Naperville Police to help us with the traffic on Hobson Road. We are also requesting an Amplifier Permit since each scene will have speakers setup so the prerecorded narration can play. The volume on the speakers will not be loud since the people watching will be standing right next to the scene. We do not anticipate noise levels for neighbors to be an issue. We did not hear any complaints last year.

Sincerely,

Dan Huffman  
Children's Pastor of The Compass Church
