ORD 25-056

WRITTEN COMMENT ONLY

Tim Messer (Naperville), East Central Homeowners Organization - The East Central Homeowners Organization (ECHO) includes the Historic District. The ECHO Civic Affairs Committee monitors City meeting agendas to the best of our ability in order to educate our board and our residents on issues that may affect our neighborhood as a whole, particularly the agendas of PZC, HPC, and City Council. However, I admit this one got by me until it appeared on this City

Council agenda, and there are questions I would have asked and requests I would have made prior to this point. The nature of TAB generally involves public notice and surveying residents about proposed changes, so we often hear about potential TAB items even before they get to a TAB agenda, but this is still not always the case (unlike PZC and HPC where signs are posted and legal notice is required). As an area with major institutional uses, arterials and cut-through routes, traffic is a big concern to ECHO. While the traffic schedule changes proposed here do not actually affect residents' day-to-day lives, as noted in staff's memo, ECHO would certainly appreciate courtesy outreach from City staff prior to TAB items reaching City Council. The full ECHO board can always be reached at board@naperville-echo.org [<mailto:board@naperville-echo.org>](mailto:board@naperville-echo.org).

RES 25-27

Council adopted.

Paul Hinterlong (Naperville) discussed the traffic concerns on Jefferson Avenue

and is in support of option 2.

Council discussed adding buffered bike lanes between the trails near the DuPage River and Parkway Drive.

Louden stated the City will be using wider pavement markings to enhance the bike lane and provide additional space between the bike lane and the travel way which will narrow the vehicle travel lane and force speeds to be reduced.

WRITTEN COMMENT ONLY

Marilyn L Schweitzer (Naperville) - Please support Option 2, implement traffic calming measures rather than directing staff to install an unwarranted 4-way stop sign. Also work with TED staff and the Police Department for city wide solutions to our increased traffic safety issues rather than randomly work on areas that catch Council fancy

(BRB Case #112) for review at a future City Council meeting

SPEAKERS

Caitlin Czuk (Naperville - Petitioner) stated the developers use of PEX and

CPVC piping does not pose a safety hazard for the domestic water supply, the use of this type of piping is approved by several building codes and the Illinois Environmental Protection Agency, the use of the piping will be strategic and limited, this type of piping will be limited to after the meter only and the piping will not be used in any of the City's underground infrastructure.

Paul Hinterlong (Naperville) spoke in favor of Option A denying a variance for the Hines Diehl Road subdivision.

Brian Yelton spoke in favor of Option A denying a variance for the Hines Diehl Road subdivision

A motion was made by Councilman White, seconded by Councilman Kelly, to concur with the Building Review Board and City staff and deny a variance to Section 5-1E-2:2 (Amendments to the Illinois State Plumbing Code) of the Naperville Municipal Code) for the Hines Diehl Road Resubdivision PUD located at 1200 E Diehl Rd. (BRB Case #112). The motion carried by the following vote:

Aye: 9 - Wehrli, Gibson, Holzhauer, Kelly, Longenbaugh, McBroom, Syed, White, and Wilson

6. Conduct the first reading of an ordinance amending Chapter 1, Title 3 of the Naperville Municipal Code to establish a Municipal Grocery Retailers' Occupation Tax and a Municipal Grocery Service Occupation Tax

Munch gave a presentation regarding the history of the State grocery tax being eliminated, how the elimination of the tax will directly affect the City and the recommendation from the Financial Advisory Board (FAB) and staff to implement a 1% local replacement grocery tax.

Council posed several questions to staff regarding the current year budget, the ability to address this issue through expenditure reductions, other options available beyond a 1% replacement grocery tax, the possibility of raising the home rule sales tax (HRST) and why that option was not presented, the ability to compare the two options, including the geographic source of revenues and their impact on low-income residents and the timing of when this decision needs to be made.

Munch stated that the General Fund budget approved last December has not changed. While an increase to the HRST was discussed during FAB meetings, it was not forwarded to the Council because there was a clear recommendation to implement a 1% local replacement grocery tax, which aligned with staff's recommendation. However, if directed, an additional 0.25% increase to the HRST remains an option and would generate approximately the same revenue as the 1% grocery tax. The Council must make a decision prior to October 1, 2025, as the Illinois Department of Revenue requires municipalities to file ordinances by that date in order for the tax to take effect on January 1, 2026. Missing that deadline would result in the City losing the first three months of potential revenue.

Krieger stated the City's local decisions need to be even more timely, as staff will begin working on the 2026 budget in July. With a projected \$6 million deficit, the approach to this budget will be significantly different. Even if the lost revenue is replaced, the City will still need to identify \$2.5 million in savings. This work will move forward, but it cannot wait until fall when the budget season begins for the Council.

By consensus Council directed staff to prepare and present at the July 15, 2025 Council meeting additional information related to the alternative revenue replacement option of raising the HRST and provide additional research into the SNAP benefits currently being used by residents.
