Hi Brad, I also spoke with our next door neighbor, and landlord. This was her response in regards to sharing the parking lot with Sim Racing.

Yana,

We had no problems sharing parking space when Arthur Murray was our tenant and both of us shared the space. Our parents line up and not all take up parking spots. Once they drop off and pick up they are not parking so not all of them utilize the parking spaces. We should have no problems accommodating both businesses with the number of parking spaces we have and the flow of traffic we have set up to have the one-way drop-off / pick-up lines. I am attaching a diagram on how we have the car flows during pick up and drop off and how the parking lot works.

Thank you,
Brenda
