Firework requirements are to meet the NFPA 1123 Code for Fireworks Display . . . and the following:

- 1) Provide three signatures on the permit application; one must be the supervisor or lead operator of the display.
- 2) Provide a sufficient number of assistants for the safe conduct of the display and the safety of those watching the display.
- 3) Provide the names and birthdates of the operators and assistants.
- 4) Provide the years of experience for the operator and assistants.
- 5) The security of the site is the responsibility of the fireworks company and the event sponsor.
- 6) Provide a scaled site map. Show distance from firing site to spectators, parking, residences, commercial buildings, and show fallout radius.
- 7) Provide an insurance declarations page.
- 8) Provide a copy of the company's ATF license.
- 9) Provide a list/inventory of shells and the size of the largest shell (inside diameter)
- 10) Provide letters authorizing to use the property for fallout and launch site.
- 11) Provide a sufficient number of fire extinguishers – charged and tagged.
- 12) The sponsor of the display shall make provisions for adequate protection for the display.
- 13) Monitors, whose sole duty shall be the enforcement of crowd control, shall be located around the display area and at other locations as determined by the sponsor.
- 14) Monitors shall be positioned around the discharge site to prevent spectators or any other unauthorized persons from entering the discharge site. The discharge site shall be so restricted throughout the display and until the discharge site has been inspected after the display.
- 15) During the firing of the display, all personnel within the discharge site shall wear head protection, eye protection, hearing protection, and foot protection; and shall wear cotton, wool, or similarly flame-resistant, long-sleeved, long-legged clothing. Personal protection equipment as necessary shall be worn by the operator and assistants during the setup and cleanup of the display.

WAIVER OF TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART
PRODUCTS/COMPLETED OPERATIONS LIABILITY COVERAGE PART

SCHEDULE

Name Of Person Or Organization:

Any person or organization with whom the insured has agreed to waive rights of recovery, provided such agreement is made in writing and prior to the loss.

Additional Premium is Included

Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

The following is added to Paragraph **8. Transfer Of Rights Of Recovery Against Others To Us** of Section IV - Conditions:

We waive any right of recovery we may have against the person or organization shown in the Schedule above because of payments we make for injury or damage arising out of your ongoing operations or "your work" done under a contract with that person or organization and included in the "products-completed operations hazard". This waiver applies only to the person or organization shown in the Schedule above.

ATTACHED TO AND FORMING A PART OF POLICY NUMBER	ENDORSEMENT EFFECTIVE DATE (12:01 A.M. STANDARD TIME)	NAMED INSURED	AGENT NO.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

BLANKET ADDITIONAL INSURED ENDORSEMENT

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

With respect to this endorsement, **SECTION II—WHO IS AN INSURED** is amended to include as an additional insured any person or organization whom you are required to add as an additional insured on this policy under a written contract, written agreement or written permit which must be:

- a. Currently in effect or becoming effective during the term of the policy; and
- b. Executed prior to the "bodily injury," "property damage," or "personal and advertising injury."

The insurance provided to these additional insureds is limited as follows:

1. That person or organization is an additional insured only with respect to liability for "bodily injury," "property damage" or "personal and advertising injury" caused, in whole or in part, by:
 - a. Your acts or omissions; or
 - b. The acts or omissions of those acting on your behalf.

A person's or organization's status as an additional insured under this endorsement ends when your operations for that additional insured are completed.

2. With respect to the insurance afforded to these additional insureds, the following exclusions are added to item 2. **Exclusions** of **SECTION I—COVERAGES**:

This insurance does not apply to "bodily injury," "property damage" or "personal and advertising injury" occurring after:

- a. All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or
 - b. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.
3. The limits of insurance applicable to the additional insured are those specified in the written contract, written agreement or written permit or in the Declarations for this policy, whichever is less. These limits of insurance are inclusive of, and not in addition to, the Limits of Insurance shown in the Declarations for this policy.
 4. Coverage is not provided for "bodily injury," "property damage," or "personal and advertising injury" arising out of the sole negligence of the additional insured.
 5. The insurance provided to the additional insured does not apply to "bodily injury," "property damage," or "personal and advertising injury" arising out of an architect's, engineer's or surveyor's rendering of or failure to render any professional services including:

- a. The preparing, approving or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; and
 - b. Supervisory, inspection, architectural or engineering activities.
6. Any coverage provided hereunder will be excess over any other valid and collectible insurance available to the additional insured whether primary, excess, contingent or on any other basis unless a

written contract specifically requires that this insurance be primary.

When this insurance is excess, we will have no duty under **SECTION I—COVERAGES** to defend the additional insured against any "suit" if any other insurer has a duty to defend the additional insured against that "suit." If no other insurer defends, we will undertake to do so, but we will be entitled to the additional insured's rights against all those other insurers.

Operation of the Display.

1. The operator shall provide fire protection at the site as required by the fire chief or his/her designee.
2. Only permitted fireworks are authorized for use.
3. Fireworks display shall be 100% electrically fired.
4. If, in the opinion of the fire chief or his/her authorized representative, lack of crowd control should pose a danger, the display shall be immediately discontinued until such time as the situation is corrected.
5. If at any time high winds or unusually wet weather prevail such that, in the opinion of the fire chief, his/her authorized representative or the display operator, a definite danger exists, the public display shall be postponed until weather conditions improve to permit safe discharge of fireworks.
6. Light snow or mist need not cause cancellation of the display; however, all materials used in the display shall be protected from the weather until immediately prior to use.
7. Display operators and assistants shall use only flashlights or approved electric lighting for artificial illumination.
8. No smoking or open flames shall be allowed within 50 feet of the firing or storage area as long as shells are present. Signs to this effect shall be conspicuously posted.
9. The first shell fired shall be carefully observed to determine that its trajectory will carry it into the intended firing range and that the shell functions over, and any debris falls into, the planned landing area.
10. The mortars shall be re-angled or reset if necessary at any time during the display.
11. When a shell fails to ignite in the mortar, the mortar shall not be touched for a minimum of five minutes. After five minutes it shall be carefully flooded with water. Immediately following the display, the mortar shall be emptied into a bucket of water. The supplier shall be contacted as soon as possible for proper disposal instructions.
12. Operators shall not attempt to repair a damaged shell nor shall they attempt to dismantle a dry shell. In all such cases, the supplier shall be contacted as soon as possible for proper disposal instructions.
13. Operators shall not dry a wet shell, lance, or pot for reuse.
14. The vendor and the sponsor shall provide perimeter control that will keep pedestrians out of the fallout zone. The entire firing range shall be inspected 15min following the display to locate any defective shells. Any such shells found shall be immediately doused with water before handling. The shells shall be placed in a bucket of water. The supplier shall then be contacted as soon as possible for proper disposal instructions.
15. When fireworks are displayed in darkness the sponsor shall ensure that the firing range is inspected early the following morning.
16. Any fireworks remaining unfired after the display shall be immediately disposed of or removed from the city/village and returned to the supplier from which they were purchased or to a location approved by the police chief or his/her designee.
17. The debris from discharged fireworks shall be properly disposed of.
