RE: Proposed Parking Restrictions on River Road

Dear Property Owner /Tenant:

## **Property Owner/Tenant Survey Parking Restrictions on River Road**

**Please complete the following survey to share your input. Your participation in this survey is a key component to the City's review of the traffic request.**

Please note that public input is one factor used in the City's evaluation of traffic requests. In addition, factors such as existing conditions, physical constraints and empirical traffic data (e.g., traffic volume counts, parking occupancy counts, and speed data) will be reviewed in order to formulate a staff recommendation and determine next steps.

The following traffic request was recently submitted to the City of Naperville.

### **Proposed Traffic Request:**

**Establish an ordinance to prohibit parking, stopping, and standing in front of 429 River Road. This ordinance would eliminate the parking box and restrict parking along the west side of River Road a distance of 265' north of Aurora Avenue.**

The purpose of this proposed change is to reduce the potential for southbound left turning traffic (in combination with a vehicle parked on-street) to restrict southbound through traffic approaching the intersection with Aurora Avenue. Restrictions would be signed and enforced for all motorists, including residents of the neighborhood. An exhibit has been prepared on the following page to better understand the details of the proposed traffic request.

### **Property Owner/Tenant Input (please select one):**

☐

Yes, I support the traffic request outlined above.

☐

No, I do not support the traffic request outlined above.

☐

I have no opinion about the traffic request outlined above.

**Below, please provide supplemental comments regarding the traffic request (as needed, additional pages may be attached).**
