Dear Doug,

Thank you for the invitation to share North Central College's perspective regarding recreational marijuana. Because marijuana remains illegal under federal law and federal financial assistance remains important to the College and our students, marijuana will continue to be banned on our campus. Additionally, under the new State of Illinois law, recreational marijuana remains illegal for individuals under age 21, prohibiting many of our students from legally obtaining and using marijuana anywhere else in the State. I hope this information is helpful as the City continues its discussions.
