2. Provide feedback on staff's interpretation of Municipal Code Section 6-16-5 pertaining to commercial wall signage

Gabrielle Mattingly, Planning Services Team, provided a presentation requesting feedback from the PZC on staff's interpretation of Municipal Code Section 6-16-5 pertaining to commercial wall signage. Ms. Mattingly explained that staff is looking for a consensus amongst the Commission as to whether painted facades or accent materials applied to facades which are representative of a commercial business should continue to be included in the calculation of wall signage allowances.

The Commission discussed staff's interpretation and the applicability of the Design guidelines. The Commission raised concern that a change to the interpretation may lead to a myriad of bright colors throughout the City, particularly within the Downtown, and requested bright colors continue to be limited in application. The Commission further explained that façade updates of individual tenants within shopping centers should be cohesive in terms of style and color with the entire center. Ms. Mattingly responded that the Downtown Design Standards and Citywide Design Guidelines will continue to be enforced and noted these guidelines limit the use of bright colors as accents and require neutral colors to be used as the primary base color. The Commission unanimously agreed that staff's interpretation of the code can be broadened.
