

**UNITING INDIVIDUAL AND
FAMILY VOICES FOR EQUITY,
DIGNITY AND CHOICE.**

Engage IL is a parent-driven coalition seeking to create a more flexible, person-centered model for living in the community.

We believe that individuals with developmental disabilities should have a choice about where they live and the right to self-direct their own lives based on their individual goals and interests.

Engage IL is working to create change...

Through Coalition Building

Engage IL hosts presentations across the state to share information with families and enlist members in the coalition

Through Advocacy

We are actively working with the State of Illinois Division of Developmental Disabilities in a Deep-Dive Study to provide feedback on existing funding models and their alignment with person-centered implementation strategies.

WE ARE BUILDING A STRONG COALITION. JOIN US!

Simply scan the QR code to receive email updates and alerts as we work together to create better outcomes for people with developmental disabilities.
