To Whom it May Concern:

For the past few months, I have been collaborating with Transportation Project Manager Michael Prousa as we examined traffic plans and safe routes to school related to Indian Prairie School District schools. These observations were completed with input from school principals and other key administrative staff and centered on suggested improvements to traffic during the arrival and dismissal of students and staff. Following these initial assessments, an additional meeting was held to discuss the proposed changes to lane markings and signage. Our school district is aware of these improvements and agrees with the recommendations made by the staff from the City of Naperville.

Sincerely,
