

10/15/18  
Planning Service Team (case #18-1-084)  
400 S. Eagle St.  
City of Naperville

To whom it may concern:

We are writing this letter in support of Jeffrey Stacey's petition for variance Naperville Municipal Code 6-2-12. We are next door neighbors living at [REDACTED] for the past 24 years.

The existing fence at 2703 Wolf River Ct. is approximately 23 years old and is very poor condition. It is an eye sore and somewhat of a safety concern. It has many rotted boards and protruding nails. (The Stacey's have done their best to maintain the fence.)

Due to configuration of their yard, it would be very difficult and extremely expensive to alter the layout of the fence.

We are offering our support to the petition filed by Jeffrey Stacey to construct a new fence similar to what exists now.

Sincerely,  
Linda M. Kandl and John M. Kandl

October 7, 2018

Dear Planning Services Team,

This letter is in regard to the request for a petition for variance (Case #18-1-084) requested by Jeffrey Stacey (2703 Wolf River Court, Naperville, IL. 60565) to replace his 6' privacy fence. Both myself and my wife, Pamela, are in support of Jeffrey and Rachel in being granted granting this variance.

Our residence is directly across the street from the fence in question; it is not now and never has been objectionable to us in any way. We have lived at this address for over 20 years through all of the owners of this property. They are just looking to replace a worn out 23 year old fence to have a safe area for their children to play.

We feel that since the original fence was within the ordinance at the time it was install that they should be grandfathered in and allowed to replace this fence in its current location. If you have any questions or would like addition comments from us please feel free to contact us.

Sincerely,

David Briggs

Pamela Briggs
