3. Pass the ordinance amending Chapter 3, Title 3, Section 11 (Liquor License and Permit Classifications) of the Naperville Municipal Code eliminating the sunset provision contained within the outdoor seating permit and increasing the required sidewalk clearance for liquor licensed establishments from five to eight feet.

Patrick Neary, Quiubo, spoke against the 8' requirement.

Council discussed restaurant caps and the appropriateness of allowing variances.

Laff stated a provision could be written into the ordinance that changes may be approved administratively by Council and not need a formal variance.

Barbara Stark, Naperville, spoke in favor of the 8' recommendation and discussed how sidewalk width impacts persons with disabilities.

Council discussed inspections and code compliance, that no complaints have been received and no violations have been cited, and the minimum accessible width.

Gary Smith, discussed accessibility and spoke in favor of an 8' minimum requirement.

Council discussed recommendations from the Accessibility Task Force, the Mayor's Commission for Disabilities, and overall pedestrian traffic in the downtown.

Dane Milldrum, Naperville, spoke against outdoor seating in the downtown.

Julie Milldrum, Naperville, spoke against outdoor seating and discussed the lack of non-establishment seating options.

Council discussed BASSET training, overserving, and downtown amenities.

Carl Skrabacz, Naperville and Senior Task Force, spoke in support of the recommendations made by the Accessibility Task Force and the Mayor's Commission for Disabilities, requested no brick pavers, highlighted the need to

promote opportunities for seniors to be active in the community, and stated that seniors will be less likely to visit downtown if accessibility is restricted.

Gabe Nanni, Craftsman, explained how the seating area is designed and discussed that 8' will be an issue for most businesses.

Laff explained that five establishments will comply with the 6' clearance, the 6' recommendation of the Downtown Advisory Commission (DAC) is consistent with streetscape standards, acceptable to the task forces and the Mayor's Commission for Disabilities. She stated that row widths vary in the downtown, obstructions like garbage cans, benches, trees, planters will always be present, it is not realistic to require larger clearance because it would eliminate a number of establishments for both liquor and general outdoor seating, and summarized that DAC recommended 6' minimum with 8' where possible for all establishments providing table service.

Council discussed sidewalk sales, sunset provision, investment by the establishment, permanence, the appropriateness of a blanket ordinance or evaluating applications on a case-by-case basis, and the streetscape project.

Laff stated that the streetscape project will be before Council in the near future and has a five-year implementation timeline.

Novack summarized site analysis, turn around points, and appropriate width for passing.

Council discussed the approval process, impediments, seating area at the Craftsman, public seating in the area, and whether regulations should not be implemented until after the streetscape project approved. Council further discussed the length of the outdoor seating license, impact to ice cream shops, installing public vs. private seating areas, appropriate fees, wi-fi access points, sunset clause, semi/permanent structures, amenity zones, and height regulations.

A motion was made by Councilwoman Brodhead, seconded by Councilman Coyne, to pass the ordinance as amended to read: pass the ordinance amending Chapter 3, Title 3, Section 11 (Liquor License and Permit Classifications) of the Naperville Municipal Code eliminating the sunset provision contained within the outdoor seating permit and increasing the required sidewalk clearance for liquor licensed establishments from five to six feet and eight feet whenever possible.
