

July 17, 2023

To Whom It May Concern:

The intent of this letter is to confirm our company's Employee Assistance Program (EAP) represents a sole source product. The premise for this stance is based on the disruption which would impact the employees/spouses and dependents would incur disruption in care should there be a change in the EAP provider as well as the confidential data which is provided.

We appreciate the opportunity to offer innovative mental health care solutions tailored to City of Naperville.

Sincerely,

Michelle Bartelt
Director of Client Relations
CuraLinc Healthcare
