A:	A) The Park District has not executed the 2023 contract and a final amount for the display has not yet been discussed by the Park Board. Once an amount is agreed upon, and approved by the Park Board at its annual budget meeting, staff will adjust the City's obligation amount accordingly. B) The August 16 City Council meeting agenda was republished on Friday, August 12. If so, how much, and what was the money spent on? Were expenditures verified and do they comply with the stipulations City Council set for granting the money? What capital art projects were begun or finished in 2022 which used City funds?</p> <p>C. The 2023 Century Walk application mentions two tentative projects with NCC. Who at NCC is responsible and currently working with Century Walk on these projects? Will either or both projects be on NCC's private property?</p> <p>D. Does Century Walk have a City Council liaison per the stipulations of their City Obligation? Who is it? Have they met with Century Walk since Council awarded the 3 year funding in 2021?</p> <p>E. Who were the funds for CW's maintenance projects paid to and in what amounts for the last two years? Has the work and copies of those checks been submitted/verified by any staff member?</p>	
A:	A-F: The August 16 City Council meeting agenda was republished on Friday, August 12. The 2023 Century Walk City Obligation allocation was pulled from the agenda item and will be considered at a future meeting. Staff will provide answers to the August 16 Q/A at that time. 6.	22-0909	Approve the award of Sole Source Procurement 22-245, Distribution Automation Switchgear, to Universal Utility Supply Company for an amount not to exceed \$497,000
----	---------	--

7.	22-0910	Approve the award of Sole Source Procurement 22-246, S&C 6800 Series Padmont Retrofit Kits to Universal Utility Supply Company for an amount not to exceed \$364,175
----	---------	--

Q:	Staff will the Ethernet upgrade connection provide additional security for the city's overall electrical grid?	Gustin
	Yes, this upgrade will allow the Utility to apply industry standard cyber security to the communication between distribution automation devices as well from the field devices to the Electric Utility control room.	Groth

8.	22-0858	Approve the award of Cooperative Procurement 22-230, Audio/Video Interview Room System, to Axon Enterprise, Inc. for an amount not to exceed \$148,957.85 and for a five-year term
----	---------	--

Q:	What remedy, if any, is the City pursuing with Genetec if the technology purchased to help the police has never worked properly and now the City must replace it two years later? How much did the City spend on the software/equipment since it was awarded in 2020, as well as to Pace Systems for the installation services?	Sullivan
A:	<p>The city was regularly working with Pace and Genetec to diagnose the issues and keep the system up and running. While there were quite few issues being worked through, the system was operational for much of the time and served its purpose.</p> <p>The move to Axon, which appears to be a slightly better product on the back end, also fits with the city and police department's goal to eliminate disparate systems. When we chose Genetec a few years ago it was "pre-body cam" and no one knew who our body cam vendor would be. Now that we have Axon, it helps to have our digital evidence, to include the interview rooms, on one platform instead of multiple software programs staff would need to</p>	Arres

	<p>go to in order to retrieve digital evidence. Additionally, much of the hardware (cameras/mics/etc) will be able to be re-used by Axon for the system, thus equating to a cost savings.</p> <p>Thus far the city has spent the following:</p> <ul style="list-style-type: none"> •2020: \$69,500 (initial purchase/installation) •2021: \$1,850 (interview room decoding) •2021: \$9,925 (Clearance Plan software)

-----------	----------------	---

Q:	Staff was this area vandalized a year or so ago whereby the three high schools assisted in restoring the school paintings on each floor? If yes, are the school paintings part of this request?	Gustin
A:	Yes, this is the same area that was vandalized but the school paintings are not part of this request.	Lang

10.	22-0931	<p>Approve the award of Cooperative Procurement 22-247, Cable Purchase to Anixter Power Solutions, LLC. for an amount not to exceed \$433,597.50</p>
------------	----------------	--

Q:	Staff as the city moves to build-out does the city have projections on how much cable will be needed in the future?	Gustin
A:	For 2023 the Electric Utility projects that it will need approximately 145,000 feet of various sized electric cable. This approximate footage includes cable needed for replacement of cable that has exceeded its life span, replacement of cable that cannot be injected as well as cable for new customer projects.	Groth

11.	22-0866	<p>Approve the award of Change Order #1 to Cooperative Procurement 22-208 Substation Battery Replacements to Wesco for an amount exceed \$60,949 and a total award of \$243,796</p>
------------	----------------	---

Q:	Staff are these batteries recyclable? With the countrywide increase in battery use there is research identifying an increase in the carbon footprint, battery leakage and various other contaminants. Should the City's Sustainability's Coordinator review?	Gustin
A:	The old substation batteries are recycled in accordance with manufacturer standards as part of the project. Utility staff have researched other types of batteries/battery chemistry and the selected style has been proven to be successfully deployed, by	Groth

	many utilities, in the substation environment for many years. These batteries support critical loads within the electrical substation, protecting the safety of utility crews as well as the general public in the event of a system fault and thus the most reliable equipment must be selected.	
--	---	--

12.	22-0875	Approve the award of Change Order #1 to Procurement 19-256, Construction Documents, Bidding, and Engineering Services, to Walker Consultants for an amount not to exceed \$15,117.88 and for a total award of \$315,117,88
------------	----------------	--

13.	22-0948	Waive the applicable provisions of the Naperville Procurement Code in order to award Procurement 22-249, Police Patrol Vehicle Replacements (Units 164 and 188 Dodge Charger sedans), Sutton Ford for an amount not to exceed \$77,946 (requires 6 positive votes)
------------	----------------	--

Q:	Any trade in value from these vehicles or are they going to auction or scrap yard? I'm glad we can't get anymore Dodges if we're having those problems with them. Stay away from them.	Hinterlong
A:	The vehicles will go to auction, as that market continues to be strong. We will remove any usable spare parts from the unit with catastrophic engine failure to service remaining Dodge Chargers and the remainder of that unit will be auctioned as a salvage unit for parts only.	Dublinski

14.	22-0852B	Receive the staff report for 445 Aurora Avenue (Charleston Row III) - PZC 22-1-034 (Item 1 of 3)
------------	-----------------	--

Q:	Staff any concerns regarding water retention on this lot or flow-off as it is very close to the river? The development datum point 696 however there appears to be a water retention next to the river. Staff will there be a restriction on lawn chemical use, or salt, etc. due to possible run-off to the river? Staff would it be helpful if NEST and staff provided input on natural plantings to filter water draining to the river? Staff has the fire department has approved the site plan?	Gustin
A:	City staff and the developer's consultant have worked together to address concerns with the stormwater discharge from this site. The stormwater runoff from this site discharges into the small quarry, not directly into the river. The stormwater will be discharged through a	Novack

		<p>thirty foot long perforated pipe that will be buried in a trench on the embankment of the pond. The engineer and landscaper have selected a variety of native plants that will be installed on the bank. The bank will have 285 native plugs planted on it as part of this project. While the expertise of NEST is appreciated, it is not needed for this project.</p> <p>The Fire Department has approved the site plan.</p>

A:	It is staff's understanding that the school district will still be paying taxes as a tenant on this property.	Kopinski
Q:	Staff is Shuman a boulevard? If so will the boulevard impair or be unsafe for the large school bus circulation?	Gustin

-----------	--	-------------------

A:	The Fire Department has indicated this change does not trigger the sprinkler requirement as the building falls below the minimum square foot requirement of 5,000 square feet. The building is required to have a fully manual and automatic fire alarm system installed.	Mattingly

A:	I do not believe the State Statute allows the City to add a handling fee for this.	Novack

2.	22-0949	Adopt the resolution supporting continued efforts to resolve public safety concerns with the Safe-T Act
----	----------------	---

Q:	This resolution points out that there are specific problems with the Safe-T act that the City of Naperville believes need to be fixed. Please confirm what specific issues/consequences impact the ability for the city of Naperville to effectively provide police services which are "unreasonably limiting the imposition of cash bail, unreasonably limiting police officer discretion to make arrests, imposing unreasonable police certification and decertification standards, and mandating unreasonable custodial accommodations". Absent specific concerns, and lacking any suggestions, I imagine having "legislators, public safety representatives and community stakeholders" work together to resolve this leaves a lot of room for interpretation of what this Council is trying to communicate to these parties. Please clarify.	Sullivan
A:	Some specific including examples include: <ul style="list-style-type: none"> •The current bill does not allow the police to arrest an offender trespassing outside on private property, even if the offender is unwilling to leave. (Class B Misdemeanor) •Particular to cash bail, we share the concerns of both local State's Attorneys regarding the retroactive application of the law resulting in release of suspected violent offenders. •The rigidity of rules surrounding custodial accommodations does not consider the complexity of investigations, especially violent felonies involving multiple suspects, and instances, although limited, where phone calls within a three hour time frame is impractical. 	Arres
