

Q/A for April 7, 2026

Agenda #	Title	Requestor Responder
I.23	Receive the staff report for 2939 Audrey Avenue (The Atlas) -DEV-0149-2025 (Item 1 of 5)	
Q.	What are staff's views on the installation of a crosswalk on Fort Hill Drive north of Audrey?	<i>Gibson</i>
A.	The Transportation Team evaluated this request and recommended installing a crosswalk on Fort Hill Drive one block to the north (of Audrey Avenue) at Dunraven Avenue. Dunraven Avenue is approximately halfway between the adjacent existing controlled crosswalk locations at Sanctuary Lane and 75th Street and would benefit a larger portion of the area residents. The crosswalk can be built through the existing median and provide a refuge island that will allow pedestrians to cross each direction of traffic separately. Construction of this crosswalk could be completed with planned street maintenance work on Fort Hill Drive in 2027.	<i>Hynes</i>
