LEGEND:

- EX. & PR. SITE LINEWORK
- PR. EVENT PARKING LAYOUT
- FIRE TRUCK PATH

- 1.Events with expected parking overflow will be coordinated with delivery, trash pickup, and other business operations. Therefore, such operations will not occur simultaneously with events. Hence, we have only included a fire truck path in this exhibit. We have not included trash and delivery trucks.
- 2.During events, parking attendants will safely guide pedestrians to and from, as well as within, the parking overflow area, thereby eliminating the need for a permanent pedestrian path.
- 3.The use of parking attendants eliminates the need for permanent wayfinding signage and striping.
- 4.The blue parking layout is intended to show the parking capacity of the event parking area only. Event parking will not be striped.
- 5.The aerial image, provided by Nearmap, is intended to serve only as a visual aid / reference in this exhibit. It differs slightly from the survey. We used the survey to dimension the parking layout, and to guide the fire truck turning path.
