

Naperville Springbrook GC

Pre & Post Simulations

Naperville Springbrook Site Summary

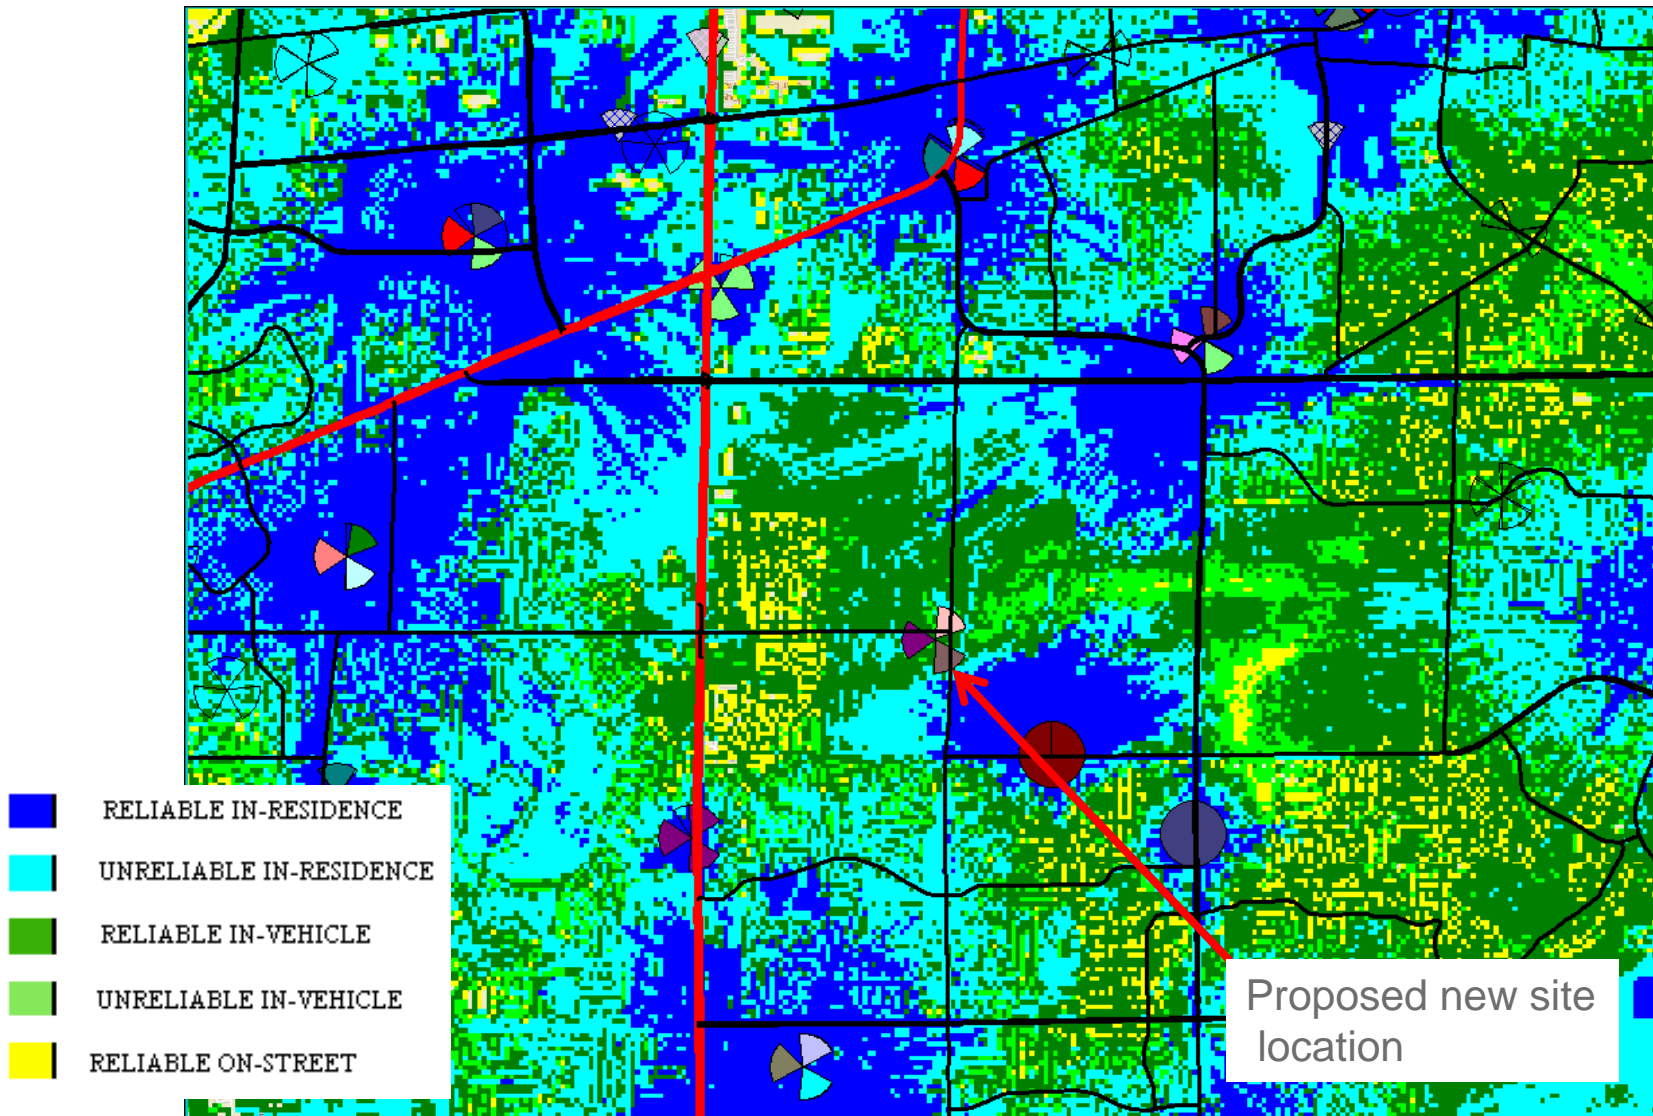

The area under consideration is needed to provide capacity relief to the neighboring cell sites.

The primary objectives of this site are:

1. Capacity offload to the neighboring sectors serving the area.
 - Surrounding sites bear high usage from busy areas such as Fox Valley Mall, Naperville Crossings...
2. Improved capacity for the daily commuters and local businesses/residences.
 - Placing a site in this area will help local residents and commuters by providing dedicated resources for this area. This will result in a faster and more reliable connection.
3. Improve reliable in-building coverage for the area.
