

52" tall x 52" wide (at widest point) x 10" deep – would be affixed to our 2" tall concrete base that we use every summer. Bases are not affixed to City Sidewalks. In 2017 we used 2 – 36" x 36" concrete bases for our Book Benches. These sculptures will only need 1 – 36" x 36" concrete base. These are smaller in scale than our Book Benches in 2017.
