East Ogden Avenue Naperville

Monument Sign Standards

Design Challenges

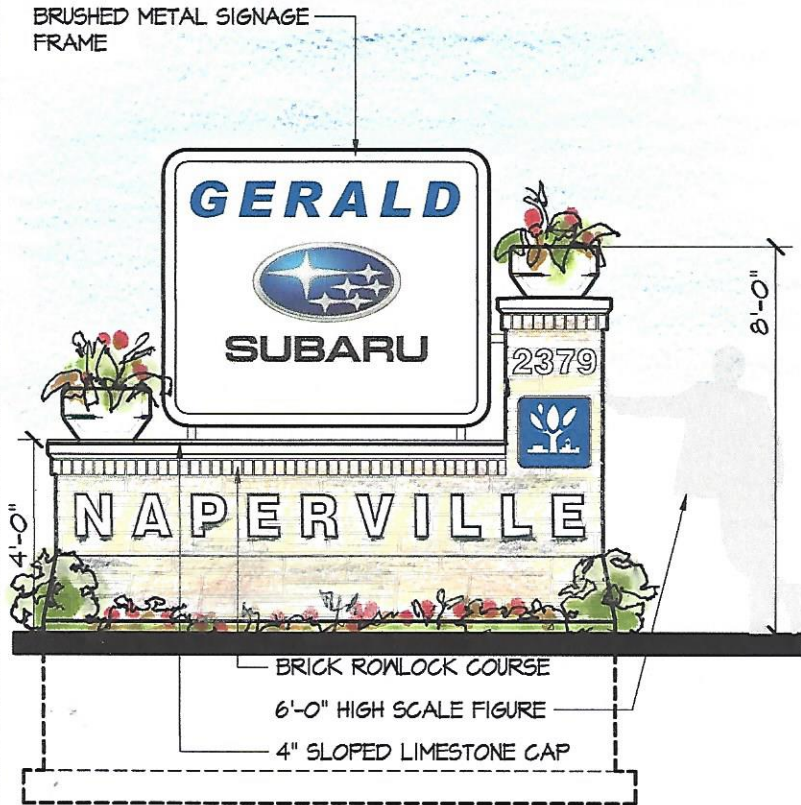

- 1. Create a distinctive and consistent theme to establish a unique character to the East Ogden Avenue Commercial Corridor**
- 2. Because of the variety of building types and architecture, the new standards should neither be ultra "Traditional" nor "Contemporary" in their style.**
- 3. Create standardization of materials, yet, allow for individual architectural project coordination on a case by case basis.**

Proposed Design Consistencies

- 1. Create a standard character, proportion and use of design elements, limestone caps and Planters**
- 2. A consistent Brushed Metal signage frame.**
- 3. A consistent Brushed Metal Address number and location**

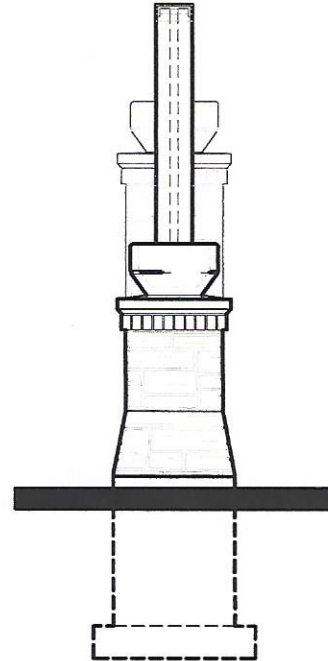

Proposed Design Variables

- 1. Overall Size based on the Sign Ordinance**
- 2. The Brick or Stone selection from the Standards or a possible project coordinated Masonry approved on a case by case basis for architectural design flexibility.**
