Dear Business Group:

The purpose of this letter is to justify wall signage on the second elevation (west elevation) of the new Starbucks Coffee on 215 East Ogden.

Exhibit 1: Section 6-3-6:2

1. Signage on the West elevation will aid in wayfinding and traffic flow which will, in return, maintain harmony along Ogden Avenue. Ogden Avenue is a major thoroughfare and at times it is congested with heavy traffic flow. Those traveling East bound will be able to locate the store sooner preventing last minute decisions that lead to possible traffic accidents.
2. The location of the store is facing one major thoroughfare with a cut through designated for the shopping center. Since the Starbucks frontage is minimal and is one of three business in the space, additional signage on the West elevation would allow for a clearer message. Drivers heading East bound who are looking for coffee can locate the store sooner and plan accordingly using one of the three access points to the site.
3. The variance, if granted, will not alter the essential character of the neighborhood. The adjacent property faces other commercial businesses- no residential areas- so illumination will not disturb the surrounding area. Secondly, the proposed signage is simplistic with use of only two colors and not in excess. Lastly, nearby businesses have a similar design with signage on two elevations.

Lastly, the signage proposed exceeds the allotted sq. footage amount by 4.83 sq. ft. The total amount proposed is 48.33 sq. ft. and the total amount allowed is 43.5 sq. ft. Please consider approving the additional amount to keep the design intent consistent with the South (front) elevation. Also, the additional amount of 4.83 sq. ft. is not excess.

Thank you for your time and consideration in this matter.

Sincerely,

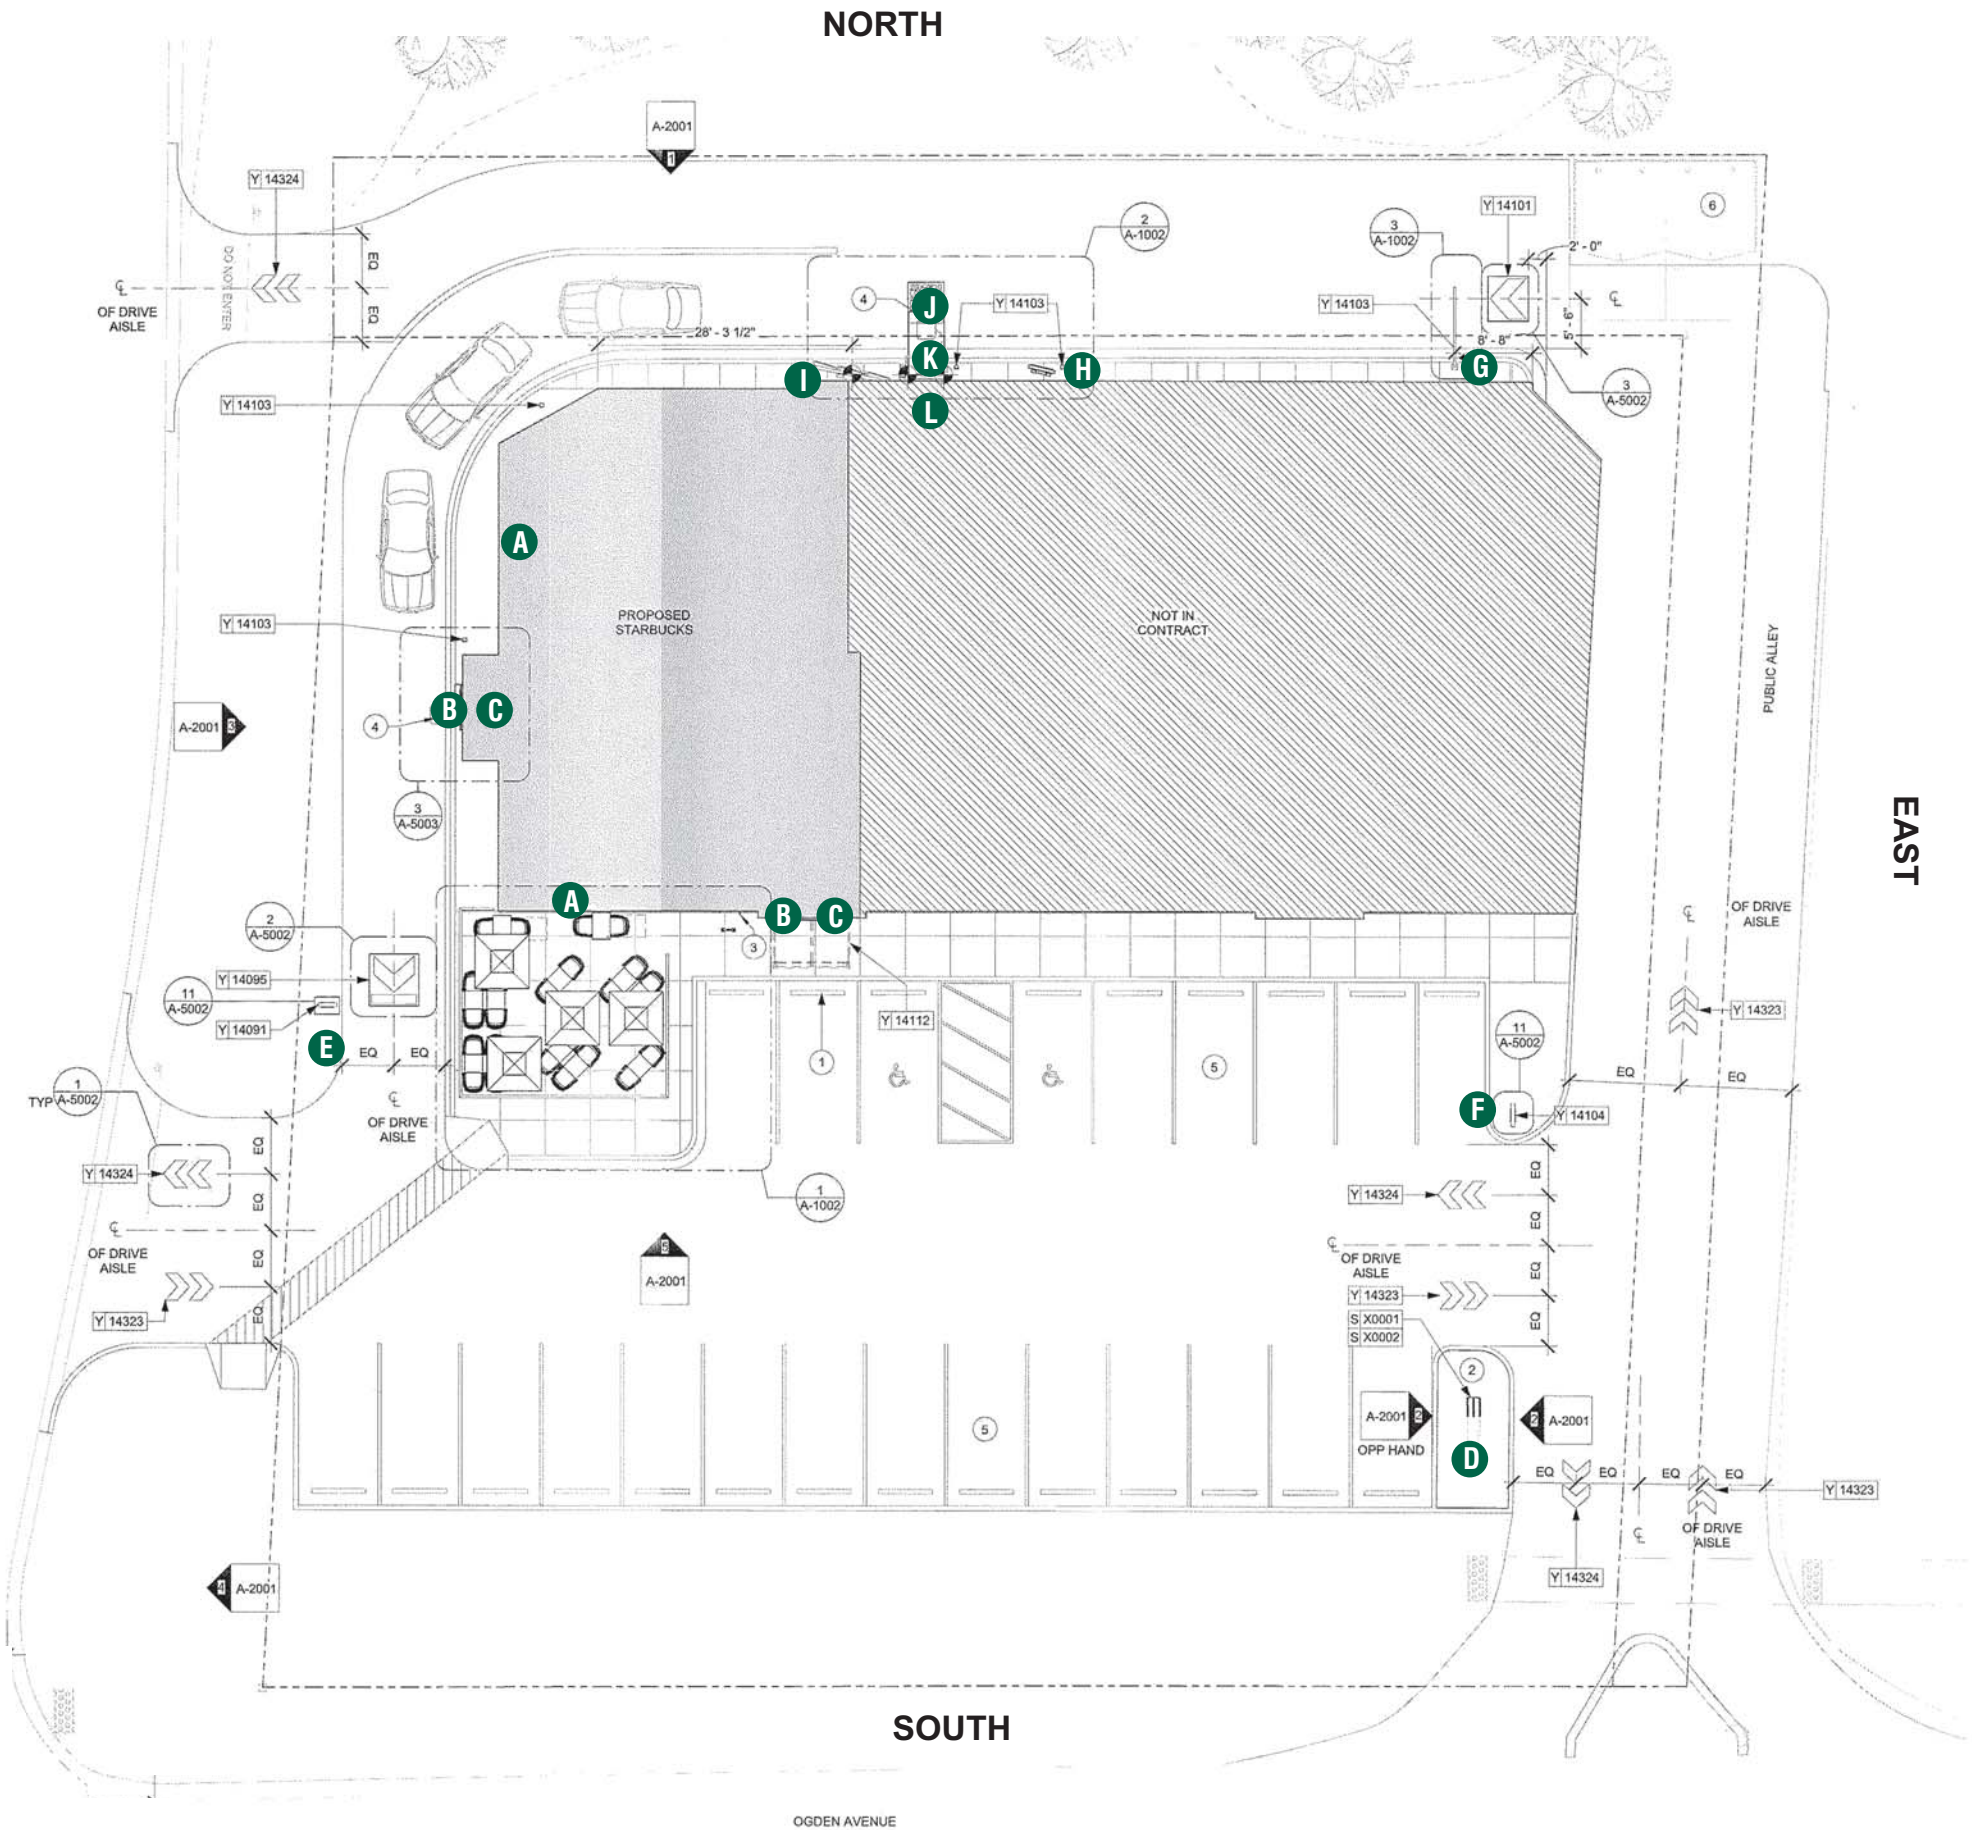

Malisa Crow
