Subject: DNA: Liquor Commission

Hi Emy,

I'm writing to provide the point of view of the DNA Management Council on 2 recent topics presented to the Liquor Commission. Thank you for sharing our group's perspective with the Commission.

Christine Jeffries briefed us on both topics and here was the discussion and outcome.

Balboa's Cheesesteak's request for a BYOB Liquor License.

DNA Management Council members, unanimously, do <u>not</u> support this. DNA Members feel that this business should be required to have a liquor license like all other liquor serving businesses do (each license type requiring bassett training, insurance, et al). DNA members feel that the Liquor Commission should not create a new license type for this single purpose, and furthermore believe that existing liquor license categories accomplish what this business is seeking to do. On a related front, the group favors existing licenses regarding corkage but anything beyond this, we are not in favor of to be fair, competitive and compatible to those businesses with liquor licenses. Unanimous vote to not support the creation of a BYOB license.

Consider Buzzed Bull Creamery's request for a new liquor license classification

DNA Management Council members **supported** this, with conditions. This business should be required to have a liquor license, for ice cream only (in-store), not coffee drinks which many felt would be tough to control. Some members commented that this business might be a fun destination type business for Naperville. All DNA members voted in support, one member voted to not support.

Thank you!

Katie Wood
