

Naper Settlement Teacher's Workshop featuring *Manufacturing Victory: The Arsenal of Democracy*

March 19, 4-6PM | \$40 Adults

Continuing education credits pending

ABOUT THE WORKSHOP

The National WWII Museum created a workshop and classroom guide to correspond with the special exhibit: *Manufacturing Victory: The Arsenal of Democracy*. The exhibit tells the inspiring story of the Home Front effort that produced tanks, planes, ships, and guns with staggering speed and unparalleled energy. It was a surge in productivity that not only brought the country out of depression, but also created mighty military forces, supplied the Allies abroad, and opened new doors of opportunity and social change. The lesson plan aligns with Common Core and National Center for History in the Schools standards. Workshop will be held at Naper Settlement.

OBJECTIVES

Through this workshop, teachers will enable students to:

- Identify and analyze primary and secondary sources including quotes, photographs, and propaganda posters to learn about the American Home Front experience during WWII.
- Define the term “production miracle” and explain why this term is used to describe American economic production during WWII.
- Discuss the historical factors that contributed to the US wartime “production miracle.”
- Use WWII production statistics to calculate and graph the rate of US production from 1941-1945 and compare/contrast this with aircraft production by Great Britain, Germany, and Japan during the same time period.
