Variance for an overweight class B Van to be parked in the driveway of property at 16 Pepperidge Road, Naperville, IL

It is our understanding that the only reason for this variance is due to the weight of the proposed vehicle and not the size (length or height.) The weight of this vehicle does not cause any issue with us. Also, due to the health issues of the male owner, it would be ideal for him to use this vehicle on a daily basis as his main mode of transportation. He needs to keep his legs elevated when riding and especially during this pandemic, it would be ideal for him to have a bathroom available and a refrigerator to keep his medicines chilled.

We've been friends and neighbors for 30+ years and have seen Tom's struggles with his health and mobility. He definitely would benefit from having this vehicle at his disposal.

Joan and Dave Rodemeyer
