

Center Stage Place opened in 2010 as a rental facility catering to live performance art with *Legitimate Theater House / Class-R Liquor License* designation. Since its launch, Center Stage Place has evolved to meet the demands of its diverse clientele and has demonstrated over 100% growth in operations since 2015. With the diversification of our clientele and rental opportunities, our current liquor license/designation is no longer suitable for a majority of clients in which we serve. We are proposing to redefine our current Class-R Liquor License designation to permit the sales of beer and wine during all rental contracts regardless of the performance/event categorization.

Under our current Class-R designation we are only permitted to sell beer and wine during live musical or theatrical presentations of a non-cinematic nature utilizing the talents of live performers. As our business has grown, Table 1, our rental opportunities have expanded to include a number of events including private parties (reunions, ceremonies, receptions, and screenings), dance recitals, film festivals, community fundraisers, comedy shows, etc. **We propose to redefine the definition of *Legitimate Theater House* to include all rental events (i.e. live performance not required).**

TABLE 1

Over the past decade we have responsibly served our clientele and community with zero incidents or violations in regards to under-aged serving, purchases, or over-served patrons. In 2018 we facilitated the addition of King's Cafe to accommodate our patrons with food and non-alcoholic beverages which employs all Basset Trained/Food Handler staff. With this new addition of King's Café, we are able to serve our clientele food alongside beer and wine.

Thank you for your time, we are excited to continue our growth and better serve our community and clientele.
