Also Present: Rebecca DeLarme, City Staff; Brian Dusak, ERA; Councilman Ian Holzhauer; Amsal Khimani, former Student Commissioner; Laura McSweeney, City Staff; Geoff Roehll, former Riverwalk Commission Chairman; and Steve Rubin

## **C. PUBLIC FORUM:**

No one from the public wished to address the Commission.

## **D. NEW BUSINESS:**

**1. Proposed River Main Project: Upper stories of the building overhanging a portion of the Riverwalk - Bill Novack**

Novack provided background information on the River Main PUD project that was previously approved by City Council, explaining that portions of the proposed building hang over a portion of the lower Riverwalk walkway, a detail that was not evident during the initial review. A minor change to the PUD will be on the City Council's agenda at the next scheduled meeting on June 15th. Novack requested feedback from the Commission to provide to Council.

Steve Rubin was introduced and provided information on the proposed multi-use project which may potentially offer retail on the ground floor, a restaurant on the 2nd floor, and office space on the 3rd, 4th and 5th floor. He explained that the overhang was intended to have a lighting system underneath to provide a welcoming front.

Discussion followed regarding the lighting, if it would be illuminated at all times, and how it would interplay with the existing Shepherd's Crook lighting. Rubin explained that the lighting was part of a LED package that would be glowing, have a natural feel, with sensors that could be controlled to support the ambiance of the building. Erickson read a statement from former Riverwalk Commission Chairman Rick Hitchcock, who suggested that the corner of the west end of the building be pushed back a few feet.

The Commission also inquired about windows on the 2nd floor, which Rubin advised will be fixed with the intent that only the end windows will open. Cuff and Joseph expressed concern with banquets being held in the open space on the balcony, the 2nd floor restaurant and possible interactions with Riverwalk patrons. Roehll discussed the distance from the overhang of the cantilever and provided more information on the LED lighting sensors that can be controlled for both ambiance and safety. Khimani inquired about the lighting being warm or cool. Kennedy expressed concern with the glowing light, noting that it should not be different from the feel of the existing lighting, and inquired if the overhang would cause shade or impact maintenance on that area of the Riverwalk. Stibbe replied that the area is maintained by the Park District in the summer and closed off in winter when there is snow and ice.

The Commission requested that the developer work with them before, during and after the installation on the color and tone of the lighting. The Commission also expressed concern with possible interactions with Riverwalk pedestrians from the restaurant and balcony. It was also suggested that the west end of the cantilever be pulled back a few feet.

## **2. Naperville Strategic Plan Survey - Bill Novack**

## **3. Riverwalk 40th Anniversary - Pam Bartlett**

Bartlett reported on a possible 40th re-dedication of the Riverwalk, which would be planned for Labor Day weekend, after the Labor Day parade. They are trying to get this on the Last Fling agenda and ideas include having cake and ice cream coupons distributed to get people into the businesses downtown. This will be supported by the Downtown Naperville Alliance. There will not be a Duck Race this year but ducks could be decorated.

## **4. In-person Meetings Starting in July - Bill Novack**

Novack advised that plans are to begin in-person only meetings with the July 6th Riverwalk Planning, Design and Construction Committee meeting, which will be held in the Lunchroom at the Municipal Center. The July 14th Riverwalk Commission meeting will be held in-person, also. Participants should park on the upper deck and come through the front doors at the first-floor entrance and then proceed downstairs to the lunchroom. Vaccinated individuals are not required to wear a mask.

## **E. OLD BUSINESS:**

Novack advised that the construction contract was awarded last week and that a pre-construction meeting is scheduled for later this morning. He will provide updates to the Commission each month. Construction is scheduled to begin in the next two weeks.

### **2. Riverwalk Master Plan - Pat Kennedy**

Kennedy asked Joseph to provide an update to the Commission on the Communications plan for the Riverwalk 2031 Master Plan. Joseph

advised that the content on the Riverwalk page of the City's website has been updated and includes a new logo that incorporates the Master Plan. A link to the Riverwalk 2031 Master Plan is also now available on the web page. His team is in preliminary conversations with a member of the City's Communications Team to begin a social media campaign that will increase public engagement on their Riverwalk experience or "Riverwalk Stories". More information will be forthcoming. Plans for a QR code have been put on hold, pending feedback regarding the signs that were used for the City's Strategic Plan. Khimani inquired about the stickers and QR codes. Kennedy advised that stickers for the City's Strategic Plan Survey were to be placed on the ground at various entrance points to the Riverwalk.

They are getting pricing on other items and will make sure funds are utilized prior to year-end, working with the Park District to purchase materials for the Fredenhagen restroom renovations. Erickson wants to make sure the parking lot improvements at the Grand Pavilion are done before or after the scheduled Walk On! event on July 30th.
