5. FACTORS FOR CONSIDERATION OF A CERTIFICATE OF APPROPRIATENESS APPLICATION RESPONSES (attach a separate sheet as needed)

Respond to the factors for consideration below that demonstrate the need and appropriateness of your request. Example responses to each factor can be found in Exhibit F. Your responses will be forwarded to the Historic Preservation Commission along with the staff memo. **Before responding to the standards, review the Historic Building Design and Resource Manual (<https://www.naperville.il.us/contentassets/7fed1bf2ba19496fa9a037f019616748/cdg-historic-building-design-and-resource-manual.pdf>) against your proposed changes.** If your proposed changes are not listed in the Historic Building Design and Resource Manual as "encouraged" or "acceptable" changes, please respond to 5.3 and 5.4. If the changes are considered "encouraged" or "acceptable" please write "N/A" for 5.3 and 5.4. Please provide thorough responses to each of the standards below.

Factors For Consideration Of A Certificate Of Appropriateness Application:

5.1. Compatibility With District Character: The Commission and Zoning Administrator shall consider the compatibility of the proposed improvement with the character of the historic district

COA # \_\_\_\_\_

in terms of scale, style, exterior features, building placement and site access, as related to the primary facade(s), in rendering a decision to grant or deny a certificate of appropriateness.

*Explanation: Please describe how the proposed changes will be generally consistent with the overall character of the historic district. With this factor, the Historic Preservation Commission seeks to confirm that the proposed changes will not conflict with the characteristics (i.e., building setback, height, materials, etc.) that are typically found in the district.*

Response to 5.1:

AGAIN TO REFERENCE THE HISTORICAL SURVEY  
PICTURE - THIS VIEW WILL REMAIN UNCHANGED.  
EXISTING & PROPOSED ARE COMPATIBLE.

5.2. Compatibility With Architectural Style: The Commission and Zoning Administrator shall consider the compatibility of the proposed improvement with the historic architectural style of the building or structure to be modified by the certificate of appropriateness request.

*Explanation: As a structure in the Historic District, guidelines for appropriate maintenance, rehabilitation and new improvements to enhance and preserve the appearance of homes are outlined in the Historic Building Design and Resource Manual. The Manual also provides background information on each architectural style found in the Historic District. For this factor, please use the Historic Building Design and Resource Manual to identify the historic features of your home as well as if your proposed changes are "encouraged, acceptable or discouraged" in the manual. Please also reference the 2008 Architectural Survey (<https://www.naperville.il.us/about-naperville/historic-district/>) and identify if any of the listed significant features of the home are being removed or changed.*

Response to 5.2:

NO CHANGE OF ARCHITECTURAL STYLE IS PROPOSED.

5.3. Economic Reasonableness: The Commission and the Zoning Administrator shall consider the economic reasonableness of any recommended changes determined to be necessary to bring the application into conformity with the character of the historic district.

*Explanation: If the proposed improvement is "discouraged" in the Historic Building Design and Resource Manual, this factor allows the applicant to explain if there is an economic benefit necessitating the requested improvement instead of an improvement that is considered "encouraged" or "accepted". The economic benefit must be reasonable. The explanation should compare the economic benefit in receiving the COA approval for the improvement, as requested, as opposed to the alternative improvement required if the COA was not approved.*

Response to 5.3 (Only respond if your proposed changes do not meet the Historic Building Design and Resource Manual guidelines):

NOT APPLICABLE. PROPOSED MATCHES THE  
EXISTING ADDITION. CREATES A NEW MASTER SUITE

5.4. Energy Conservation Effect: In making its determinations, the Commission and Zoning Administrator shall consider the effect that any recommended changes may have on energy conservation.

*Explanation: If the proposed improvement is "discouraged" in the Historic Building Design and Resource Manual, this factor allows the applicant to explain if there is an Energy Conservation benefit which is necessitating the requested improvement instead of an improvement that is considered "encouraged" or "accepted." Please describe which aspects of the proposed changes will impact the energy efficiency of the home, and if possible, include metrics that show the change in efficiency. The explanation should compare the efficiency benefit in receiving the COA approval for the improvement, as requested, as opposed to the alternative improvement required if the COA was not approved.*

Response to 5.4 (Only respond if your proposed changes do not meet the Historic Building Design and Resource Manual guidelines):

AS THE NEW, PROPOSED WORK WILL REPLACE  
PORTIONS OF EXISTING CONSTRUCTION & WILL NEED TO  
COMPLY WITH ENERGY CODES, I SUSPECT THAT THERE  
MAY BE A POSITIVE CONSERVATION EFFECT.

5.6. The City's Historic Building Design and Resource Manual may be used as a resource in consideration of the above.

*Explanation: The Historic Building Design and Resource Manual is a guiding document for the Historic Preservation Commission with educational resources to assist the members in making well-informed decisions to protect and maintain the Historic District. In this section, please list and describe all portions of the manual that apply to your proposed changes. Please note if the proposed changes align with what is "encouraged", "acceptable", or "discouraged" in the manual.*

Response to 5.6:

ALWAYS CONSIDERED. NOTHING PROPOSED  
ALTERS THE EXISTING BUNGALOW STYLE.

6. RELATED VARIANCE, CONDITIONAL USE OR REZONING REQUEST(S):

Please describe any zoning variance, conditional use, or rezoning requests that may be required to complete the proposed work. (note: a separate application must be filed with the Planning Services Team for these requests).
