D. OLD BUSINESS:**1. Moser Tower Assessment - Bill Novack**

There is no new information to report. Later this summer, Engineering Resource Associates will submit their amendment to the report.

2. Naperville Jaycees Park formerly Tech Park - Jeanne Buddingh for Geoff Roehll

Buddingh read the report from Roehll stating that construction documents for the Jaycee Park have been submitted to the City's review team. V3 has met with DuPage County. As the project involves only a "cut" rather than "fill, the only stormwater requirement is a General Certificate. This certificate has been granted eliminating the need for a stormwater permit.

The City's Department of Public Works will do the metal work and underdrain work as well as act as the general contractor on the project. The electrical, concrete and landscaping work will be bid out.

Once all approvals have been granted and a contractor has been chosen, the park should take less than 90 days to build, given good weather. The lower Riverwalk pathways will be closed during construction while the upper walkway will remain open.

3. Harmony Park - Jeanne Buddingh for Geoff Roehll

Buddingh read the report from Roehll stating that the Park District Board approved the addition of Harmony Park to the Riverwalk at their June 14, 2018 meeting. The City council approved the addition of the park at their June 19, 2018 meeting. Rotary Club has agreed to a one-time payment to fund the first five years of maintenance for Harmony Park. A pre-construction meeting was held on July 10, 2018. Instruments have a two to three week lead-time. Construction could commence by the end of summer and should take approximately four weeks to complete. A possible ground breaking or dedication will be determined by the Mayor's Office.

E. NEW BUSINESS:

1. Maintenance Policy for Additions to the Riverwalk - Bill Novack

The Riverwalk has been approached many times throughout the years to accept new amenities to the park. The gifts are greatly appreciated but with each additional amenity comes the burden of maintenance costs. The idea to develop a practice or policy to include maintenance costs in the acceptance of a gift was discussed.

It was suggested that, among other things, the policy should include information about the following:

- The life cycle of the gift e.g. how long the amenity is expected to last
- What the expected maintenance cost would be and who should be responsible for funding those costs

An analogy was made that these gifts are not like gifting a chair but more like a puppy that has ongoing responsibilities and care. Erickson will explore how other municipalities and organizations address the issue of ongoing maintenance from gifted amenities.

Intergovernmental Riverwalk Maintenance Agreement
The City Council approved the 5th Amendment to the Riverwalk Maintenance Agreement at their June 19, 2018 meeting. Many thanks to the Park District.
