D. OLD BUSINESS:**1. Moser Tower Assessment - Bill Novack**

Novack reported that ERA has recently received the information from the last structural assessment. They are analyzing the results and will be incorporating that information into their update. ERA hopes to have the updated report submitted in October for an initial discussion at the November Planning, Design & Construction Committee (PDC) meeting and an additional discussion at the December PDC meeting. Depending on the outcome of the discussions, a recommendation may be brought to the December Riverwalk Commission meeting.

2. Riverwalk Master Plan - Pat Kennedy

Kennedy shared that at the October 1, 2019 Planning, Design & Construction Committee, Commissioners and others visited sites that are being considered as future projects and enhancement opportunities. Some of these include the South Extension from Hillside Road to Martin Avenue, a bike lane from Hillside Road to Fredenhagen Park, 430 S. Washington Street, the pavilion at Fredenhagen Park, the north and south DuPage River shoreline between Main Street and Washington Street, the

Eagle Street Gateway and the Grand Pavilion.

During the site visits, Commissioners imagined how each location could provide additional safety, complete a gap in the Riverwalk pathway, provide for additional accessibility and/or make the Riverwalk more hospitable to its users.

All Commissioners are encouraged to “think out of the box” and be imaginative when they are walking the Riverwalk to consider new possibilities and enhancements to make to our crown jewel. These will be discussed and explored as possible additions to the final Riverwalk Master Plan.
