Contract 19-258 was approved by the City Council on February 11, 2020 for a two-year term with four, two-year options to extend.

DISCUSSION:

On May 28, 2020, the mayor issued an Executive Order permitting restaurants to install temporary outdoor seating areas to address indoor dining restrictions due to the COVID-19 pandemic. Each

restaurant constructed its own seating area and the City assisted by providing snow fence and water-filled barriers.

Earlier this year, representatives from the Downtown Naperville Alliance (DNA), Naperville Development Partnership (NDP), and the City partnered to develop options to expand outdoor dining in the downtown area for 2021. The goal was to have attractive, uniform, safe set-ups that could be installed in the spring.

After reviewing many options, staff developed an outdoor dining seating area that for the downtown that includes crowd control fencing (painted black), brick pillars, planter boxes, and overhead string lighting. These 15 outdoor dining cafes have been placed and are located in on-street parking spaces.

This change order is requested to fund the purchase and installation of approximately 150 planters and flowers for the outdoor dining areas. The maintenance of the flowers will be performed by in-house crews.
