PLANNING AND ZONING COMMISSION AGENDA ITEM

ACTION REQUESTED:

Conduct the public hearing for 4003-4083 S Route 59 (Saddlewood Commercial Complex) - PZC 23-1-004

DEPARTMENT: Transportation, Engineering and Development

SUBMITTED BY: Adam Beaver, AICP Candidate, Community Planner

ENTITLEMENTS REQUESTED:

1. A conditional use pursuant to Section 6-7B-3:3 (B2 Community Shopping Center District/Conditional Uses) for a Daycare use in the B2 district at the Saddlewood Commercial Complex.
2. A variance to Section 6-9-2:4.3.1 (Off Street Parking Facilities) to permit parking within the 30' setback along Alice Ln.

BOARD/COMMISSION REVIEW:

Official notice for the public hearing for PZC 23-1-004 was published in the Naperville Sun on Sunday, April 30, 2023.

BACKGROUND:

The subject property is located on Route 59 between 103rd Street and Alice Lane and consists of a 3.22 acre parcel that includes an existing commercial center and a currently unimproved adjacent lot that will be consolidated with the property through an administrative plat of subdivision that will be

reviewed and approved administratively.

The petitioner requests approval of a conditional use for a daycare on the subject property, pursuant to Section 6-7B-3:3 (B2 Community Shopping Center District/Conditional Uses) of the Municipal Code. The petitioner is also requesting approval of a variance to Section 6-9-2:4.3.1 (Off Street Parking Facilities) to permit parking within the 30' corner side yard setback along Alice Lane.

DISCUSSION:

Conditional use:

The petitioner is requesting conditional use approval for a proposed daycare use at the subject property. The daycare would occupy approximately 10,615 square feet of the approximately 33,091 square foot center as well as approximately 4,980 square feet of outdoor space. With the additional parking that the petitioner is proposing, there would be sufficient parking available for this use, including 11 spaces that are designated for drop off/pick up adjacent to the proposed daycare space.

The City's Land Use Master Plan identifies the future place type for the subject property as Neighborhood Center. Staff finds the proposed use to be compatible with this designation as a key consideration in the Neighborhood Center classification is the allowance of a mix of uses that support the adjacent neighborhoods. The petitioner has stated that the proposed daycare will provide much needed childcare services to area.

Setback variance:

The petitioner is requesting approval of a variance to allow parking within the 30' corner side yard setback along Alice Ln. Code Section 6-9-2:4.3.1 (Off Street Parking Facilities) states that parking facilities may be located in any yard except the required front yard and corner side yard. With the properties across the street from the subject property being residential, the 30' corner side yard setback is required in the B2 zoning district. The petitioner is proposing to locate 10 parking spaces approximately 9 feet from the property line, an encroachment of approximately 21 feet into the required setback.

The requested variance would allow for the petitioner to provide the number of parking spaces that are required by Code on the property. The proposed parking spaces would also align with the existing parking on the property further East along Alice Ln, providing a consistent setback. The petitioner has also stated that if the setback were to be met, there would be concerns regarding traffic circulation and safety due to the layout that would be required. Adequate screening is proposed for the parking spaces that fall within the setback to screen them from the residential uses across the street. Staff is in support of the requested variance.

Plat of Subdivision

The Plat of Subdivision is included in the attachments for informational purposes only and will be reviewed and approved administratively by staff.

Findings of Fact

The petitioner's responses to the Standards for Granting a Conditional Use and responses to the Standards for Granting a Variance can be found in the attachments. Staff is in general agreement

with the petitioner's findings and recommends their approval by the Planning and Zoning Commission.
