BACKGROUND:

The purpose of the Comprehensive Sidewalk Plan is to improve walkability throughout the City.

In 2019, the selection process for the New Sidewalk Program was revised to better prioritize the remaining sidewalk gaps in the City. As a result, a two-year program was created and approved by both the Transportation Advisory Board (TAB) and the City Council. The first year of the program was constructed in 2021 and this award is for the second year of the program.

In July 2022, the Transportation, Engineering and Development (TED) Business Group issued Bid 22-224, 2022 New Sidewalk Program. This bid included a base bid and three alternatives in an effort to optimize the size of the program under the current market conditions. The base bid consisted of the remaining sidewalk gaps approved in 2019 and a retaining wall required near one contingency location to accommodate sidewalk modifications. Each alternative bid cumulatively adds one contingency location. The gap locations are listed below.

Base Bid:

- Aurora Avenue, south side between IL Rt 59 and Westridge Court
- Porter Avenue, north side between Julian St and White Oak Dr
- Slight Street, west side between Hillside Rd and Prairie Ave
- Wellner Rd, east side between Loomis St and Slight St
- Webster St, northwest corner with 11th St; retaining wall for sidewalk modifications

Alternative 1: adds Benton Avenue, north side between Fremont St and West St

Alternative 2: adds Webster Street, east side between 10th Ave and 11th Ave

Alternative 3: adds Cottage Street, south side between Fremont St and West St
