CITY COUNCIL AGENDA ITEM

ACTION REQUESTED:

Approve the award of Bid 24-016, 2024 Microsurfacing Pavement Maintenance, to AC Pavement Striping Co., for an amount not to exceed \$753,484.29, plus a 3% contingency

DEPARTMENT: Transportation, Engineering and Development

SUBMITTED BY: William J. Novack, P.E., Director of Transportation, Engineering, and Development/City Engineer

BACKGROUND:

In March 2024, the Transportation, Engineering and Development (TED) Business Group issued Bid 24-016 seeking contractors to perform microsurfacing on various city streets. Microsurfacing involves the installation of a thin, latex-modified, asphalt-wearing course. The application will be placed in two lifts, generally on consecutive days, with a combined thickness of approximately 3/8 of an inch. New striping and pavement markings will be applied to the finished surface upon completion of paving. Microsurfacing is a cost-effective preventative maintenance technique and when performed routinely, it can keep water and debris from getting into the pavement.
