CITY COUNCIL AGENDA ITEM

ACTION REQUESTED:

Approve the award of Option Year One to Contract 19-197, Security Camera Maintenance and Repair Services, to Pace Systems Inc. for an amount not to exceed \$125,000

DEPARTMENT: Department of Public Works

SUBMITTED BY: Richard Dublinski, Director

BOARD/COMMISSION REVIEW:

N/A

BACKGROUND:

The Department of Public Works (DPW) maintains more than 370 security cameras located throughout the City, including in and around City facilities, in the downtown area, and in and around the Naperville Metra train station. DPW has historically contracted the maintenance and repair of the security cameras.

In October 2019, the City Council awarded Contract 19-197, Security Camera Maintenance and Repair Services, to Pace Systems Inc. for a two-year term with three, one-year options to extend. The purpose of this contract is to provide routine and non-routine maintenance and repair of the City’s security cameras. The routine maintenance component of the service contract includes 24-hour customer support, camera performance monitoring, responding to alerts, monthly and annual inspections of equipment, adjustments and programming. Non-routine maintenance includes any work not clearly outlined in the routine maintenance list, such as hardware repair and replacement.

DISCUSSION:

During the original term of the contract, Pace Systems Inc. performed both routine and non-routine

maintenance and also installed temporary cameras throughout the downtown that were used during the civil unrest event in 2020.

Based upon the vendor's performance, DPW recommends to extend the contract for the first option year. Pace Systems Inc has requested a 3% increase to the contract pricing due to labor rate increases that they have incurred.

The term of the first option year is November 1, 2021 to October 31, 2022, with two, one-year options remaining on the agreement.

FISCAL IMPACT:
