BACKGROUND:

The Department of Public Works-Fleet Services issued Bid 18-078 to provide auto body repair and painting services for heavy duty trucks, which cannot be done in-house. The work to be performed includes metalwork, framework and mechanical repairs resulting from accidents, mishaps and corrosion repairs. This work requires a facility capable of handling large, heavy duty vehicles. A larger than normal garage door and interior space for working on the vehicles is required.

A bid for these services was rejected earlier this year because the responses were higher than what the City had budgeted. Staff revised the scope of work to keep costs within the budget amount. The contract term is one year, from April 1, 2018 through March 31, 2019, with four one-year options.
