BOARD/COMMISSION REVIEW:

BACKGROUND:

A Water Utilities Chevrolet 2500HD pickup truck was reviewed by the Fleet Economic Committee and Fleet Services Project Manager and approved for replacement in the 2018 budget. Vehicles and equipment are evaluated for replacement based on four criteria: age, usage, condition and repair costs. A vehicle must receive a score of 23.0 or greater to be recommended for replacement. The vehicle exceeds the minimum score as shown in the table below.

Unit #	Year	Amortized Life Cycle	Replacement Age	Minimum Criteria	Scored Criteria	Miles Guidelines	Usage Miles	Repair Costs
731	2006	10 years	12 years	23.0	33.01	80,000	60,950	\$31,017.75

DISCUSSION:

The Water Utilities and Department of Public Works - Fleet Services Division recommend the purchase of one 2018 Ford F-550 XL 4x2 Chassis Cab with crane body and crane attached. The new Ford F-550 with crane will maintain conformity in the City's fleet, which minimizes operational,

service, maintenance, repair, safety and training costs including minimizing costs associated with parts inventory. The pickup with crane is available on the Suburban Purchasing Cooperative, an approved cooperative, through Currie Motors Fleet, Contract No.146.

Using the City's specifications, Currie Motors has quoted the Ford F-550 XL 4x2 chassis in the amount of \$43,985 less the municipal discount of \$9,763. The total award amount for the vehicle is \$111,078. The current Chevrolet 2500HD will be sold through one of the approved auction sites. The Ford F-550 with crane body will be delivered in approximately 100 days.

Ford F-550 XL 4x2 Chassis Cab	Less Suburban Purchasing Cooperative Discount	Monroe Crane Body	Net Price
\$43,985	\$9,763	\$75,561	\$111,078
