CITY COUNCIL AGENDA ITEM

ACTION REQUESTED:

Waive the first reading and pass the ordinance to regulate parking on Cantore Road (requires six positive votes)

DEPARTMENT: Transportation, Engineering and Development

SUBMITTED BY: Phil Tartaglia, TED Project Engineer

BOARD/COMMISSION REVIEW:

On November 5, 2020, the Transportation Advisory Board (TAB) recommended approval to establish a No Parking Zone on the north and south side of Cantore Road from Illinois Route 59 to a point 308 feet east of the Forge Drive edge of pavement (Approved 7-1).

BACKGROUND:

Residents of the Woodlake Subdivision sent a request to the Transportation Team to evaluate a safety concern related to on-street, semi-truck parking on Cantore Road, east of Forge Drive. The specific concern was that semi-truck parking was limiting sight distance needed for southbound traffic exiting Forge Drive to view oncoming vehicles.

DISCUSSION:

The Transportation Team evaluated this safety concern and followed the American Association of State Highway and Transportation Officials (AASHTO) guidelines for sight distance. Based on these sight distance standards, the parked trucks can block the line of sight necessary for vehicles to safely exit Forge Drive given the posted speed limit for Cantore Road under the standard parking regulations.

Staff found that prohibiting parking on both the north and south sides of Cantore Road from IL Route

59 to a distance 165 feet east of the Forgue Drive edge of pavement will provide the appropriate clear line of sight for vehicles exiting Forgue Drive onto Cantore Road. The restriction is recommended on both sides of Cantore Road to prevent a similar sight distance concern on the opposite side of the street. Prohibiting parking between IL Route 59 and Forgue Drive will also prevent potential vehicular conflicts with the turn lanes that develop closer to the IL Route 59 intersection.

Transportation Advisory Board Discussion

Staff initially presented a recommendation to prohibit parking on both sides of Cantore Road from Illinois Route 59 to a point 165 feet east of the Forgue Drive edge of pavement to address the sight concerns raised by the residents. The Transportation Advisory Board (TAB) discussed the recommendation and raised concerns that the proposed limits may result in trucks continuing to park in the remaining portion of Cantore Road where parking is not prohibited, creating congestion issues where the roadway narrows and transitions between the commercial and residential areas. TAB recommended that the No Parking Zone be expanded beyond what was recommended by staff to include the entire length of the roadway adjacent to the commercial area. One TAB member was not in favor of this recommendation due to concerns that it would restrict the residents from parking in this area in addition to the semi-trucks. TAB recommended approval to establish a No Parking Zone on the north and south side of Cantore Road from Illinois Route 59 to a point 308 feet east of the Forgue Drive edge of pavement by a vote of 7-1. Staff concurs.

FISCAL IMPACT:

No Parking signage will be installed at an estimated cost of \$150.
